

OVERVIEW OF THE MASTER UNIVERSE

The Architects of the Master Universe are the governing corps of the Paradise Transcendentals. This governing corps numbers 28,011 personalities possessing master minds, superb spirits, and supernal absonites. The presiding officer of this magnificent group, the senior Master Architect, is the co-ordinating head of all Paradise intelligences below the level of Deity. Once completed as an Absolute construction the Master Universe will be based on four reality levels.

- 1) Finite and finite integration.
- 2) Absonite and Absonite-Absolute integration.
- 3) The Absolute and integration with Paradise.
- 4) Consummation of Universe Destiny through the Deity Absolute with the Universal Absolute as the Consummator of Universe Destiny.

In these diagrams the outer space zones are disproportional. Their true proportions can be better understood by the numbers of the Architects of the Master Universe as shown in the following table.

ARCHITECTS of the MASTER UNIVERSE		
LEVEL		NUMBER
1	The Paradise Zone	1
2	The Havona Zone	3
3	The Superuniverse Zone	7
4	The First Outer Space Zone	70
5	The Second Outer Space Zone	490
6	The Third Outer Space Zone	3,430
7	The Fourth Outer Space Zone	24,010
		Total: 28,011

When completed the SUs will host approx. 7 trillion inhabitable spheres.

GRAVITY SYSTEMS OF THE MASTER UNIVERSE

- PHYSICAL GRAVITY: the Paradise gravity grasp. The Grand Universe currently using about 5%.
- SPIRITUAL GRAVITY: the Eternal Son's gravity grasp. Currently only in the Grand Universe.
- MIND GRAVITY: the Infinite Spirit's gravity grasp. About 85% in the Grand Universe.
- PERSONALITY GRAVITY: the Universal Father's gravity grasp. Can be recognized but not measured.

The Isle of Paradise is about 4 billion light years in width.

Outer Space Zone (OSZ) 1 is about 25.4 billion light years in width.

OSZ 1, 2, 3, space is almost equally above and below the Central Continuum.

OSZ 4 is larger than the first three Outer Space Zones.

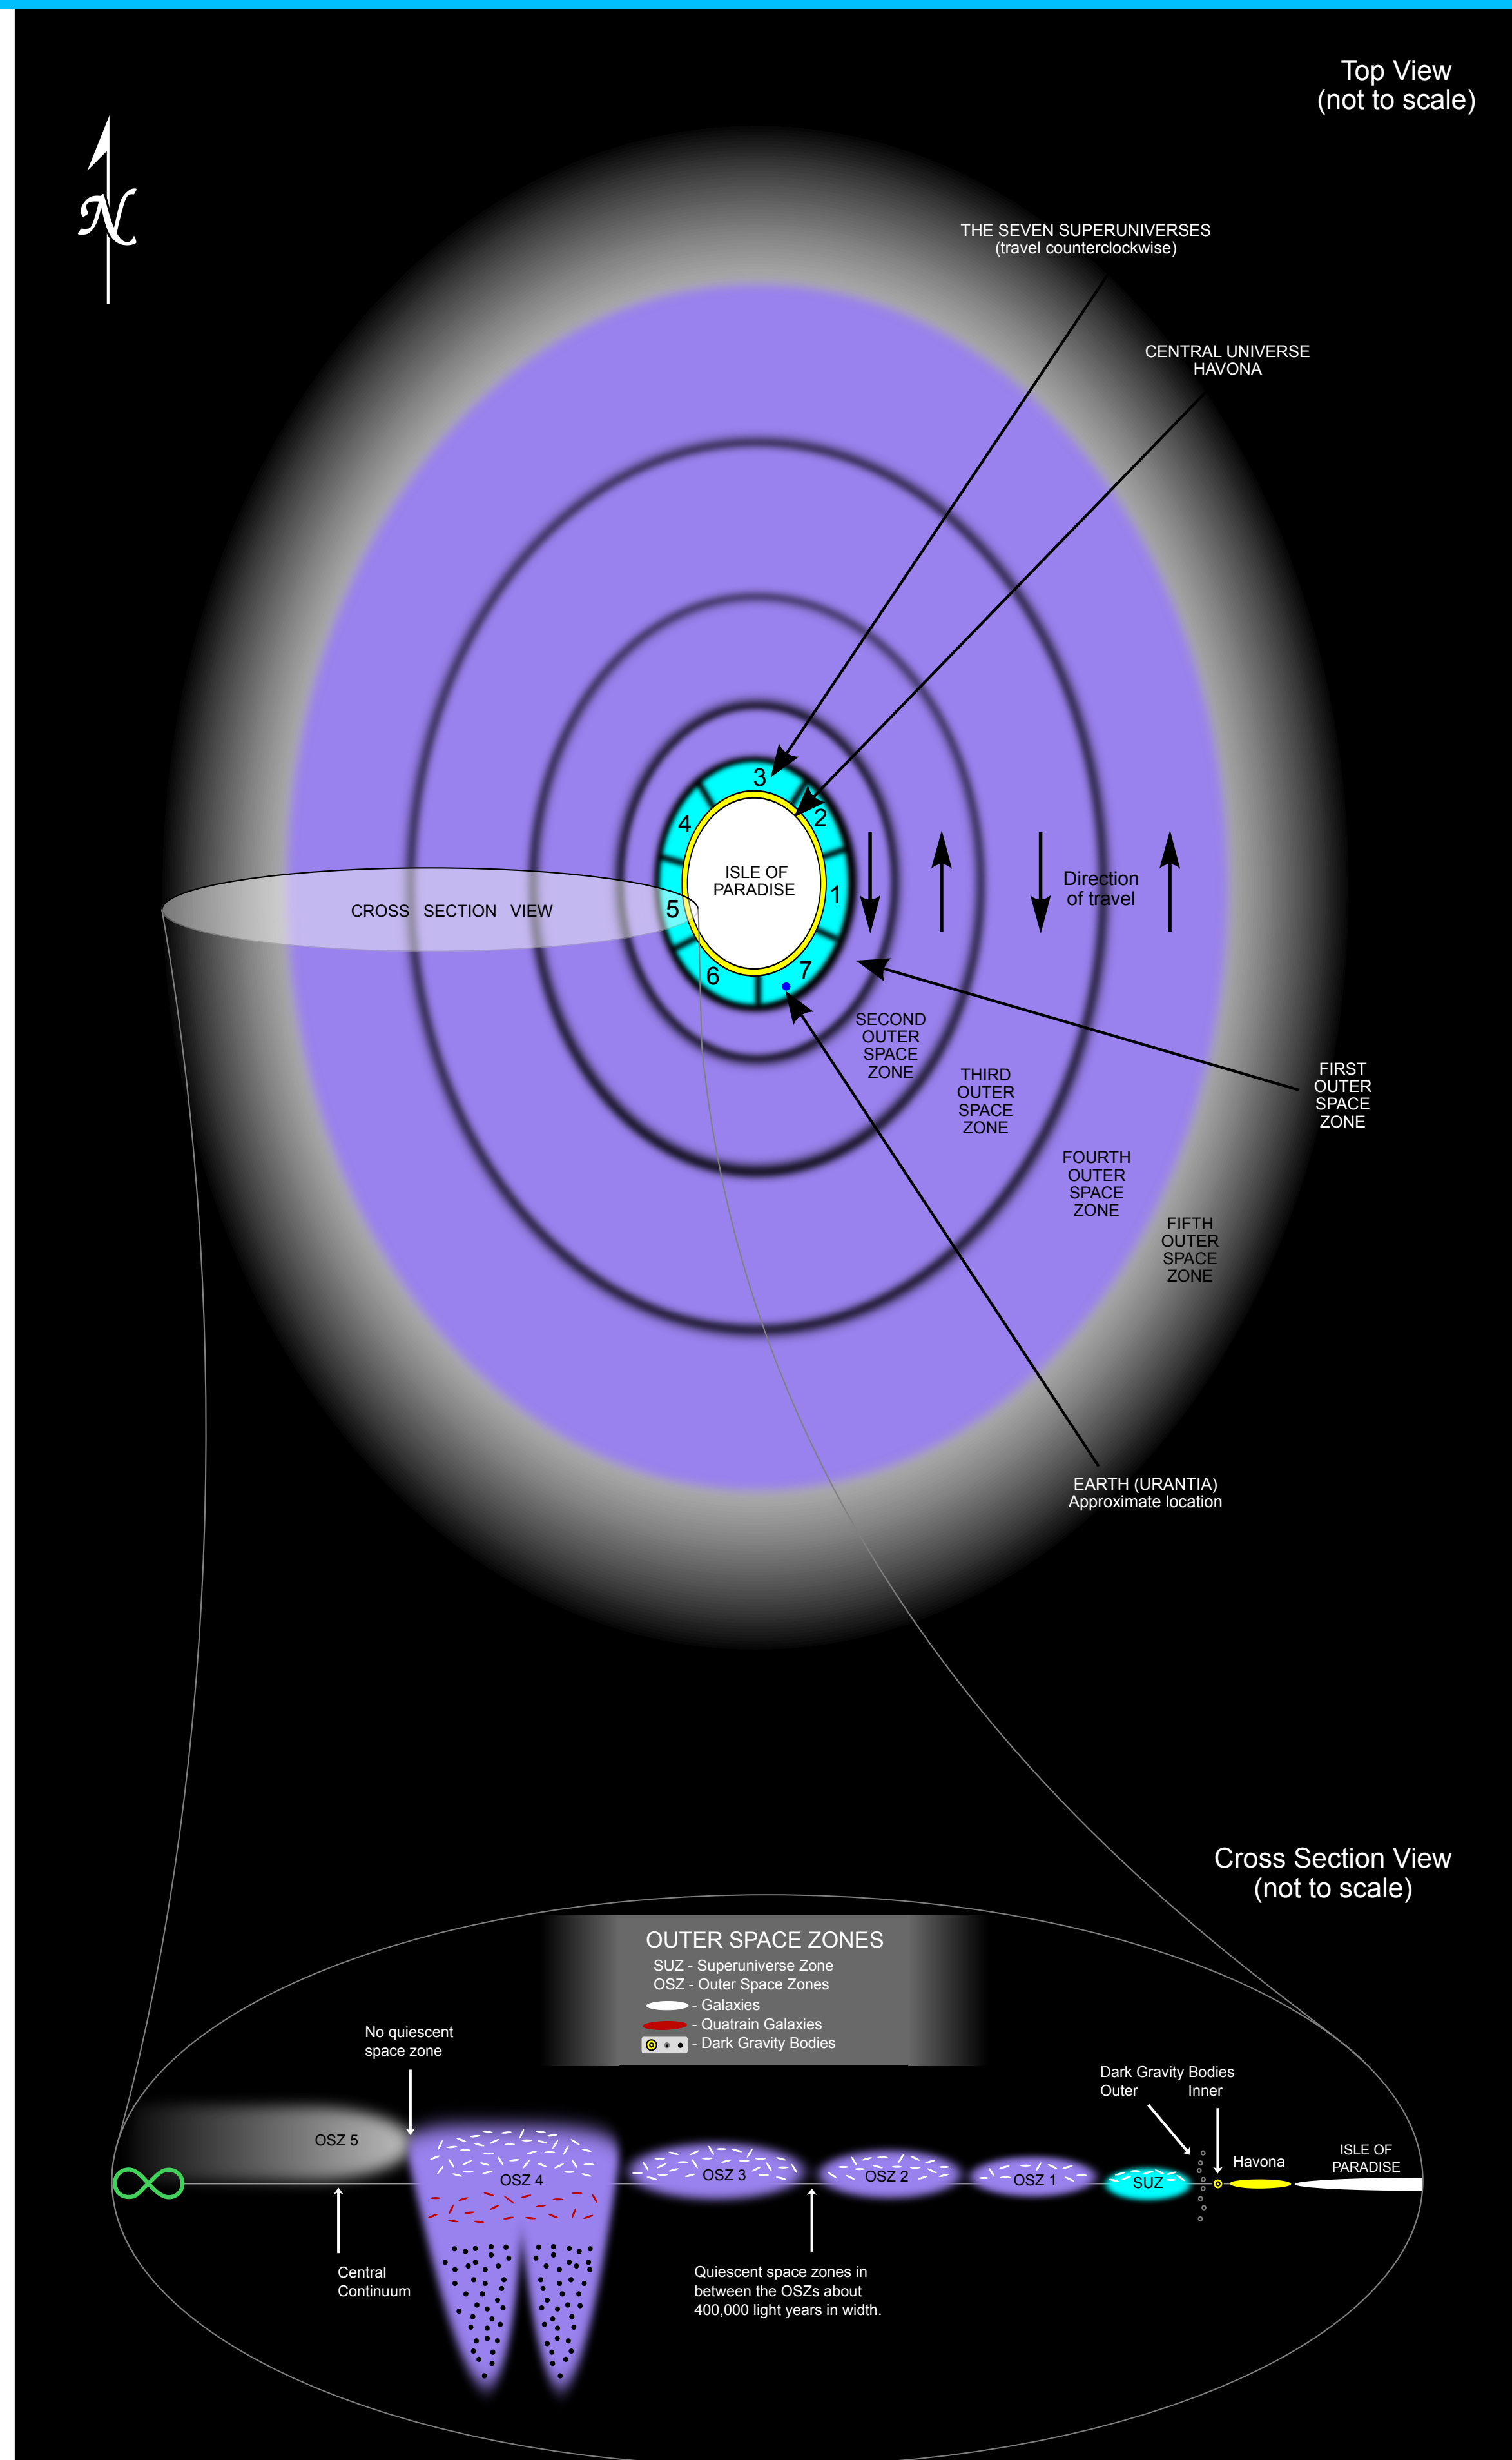

OSZ 4 has more space below the Central Continuum and is conical in shape.

The top of OSZ 4 is flatter in shape. The new gravity bodies in the bottom of OSZ 4 are transition gravitons and will be amassed in great quantities when OSZ 4 is complete.

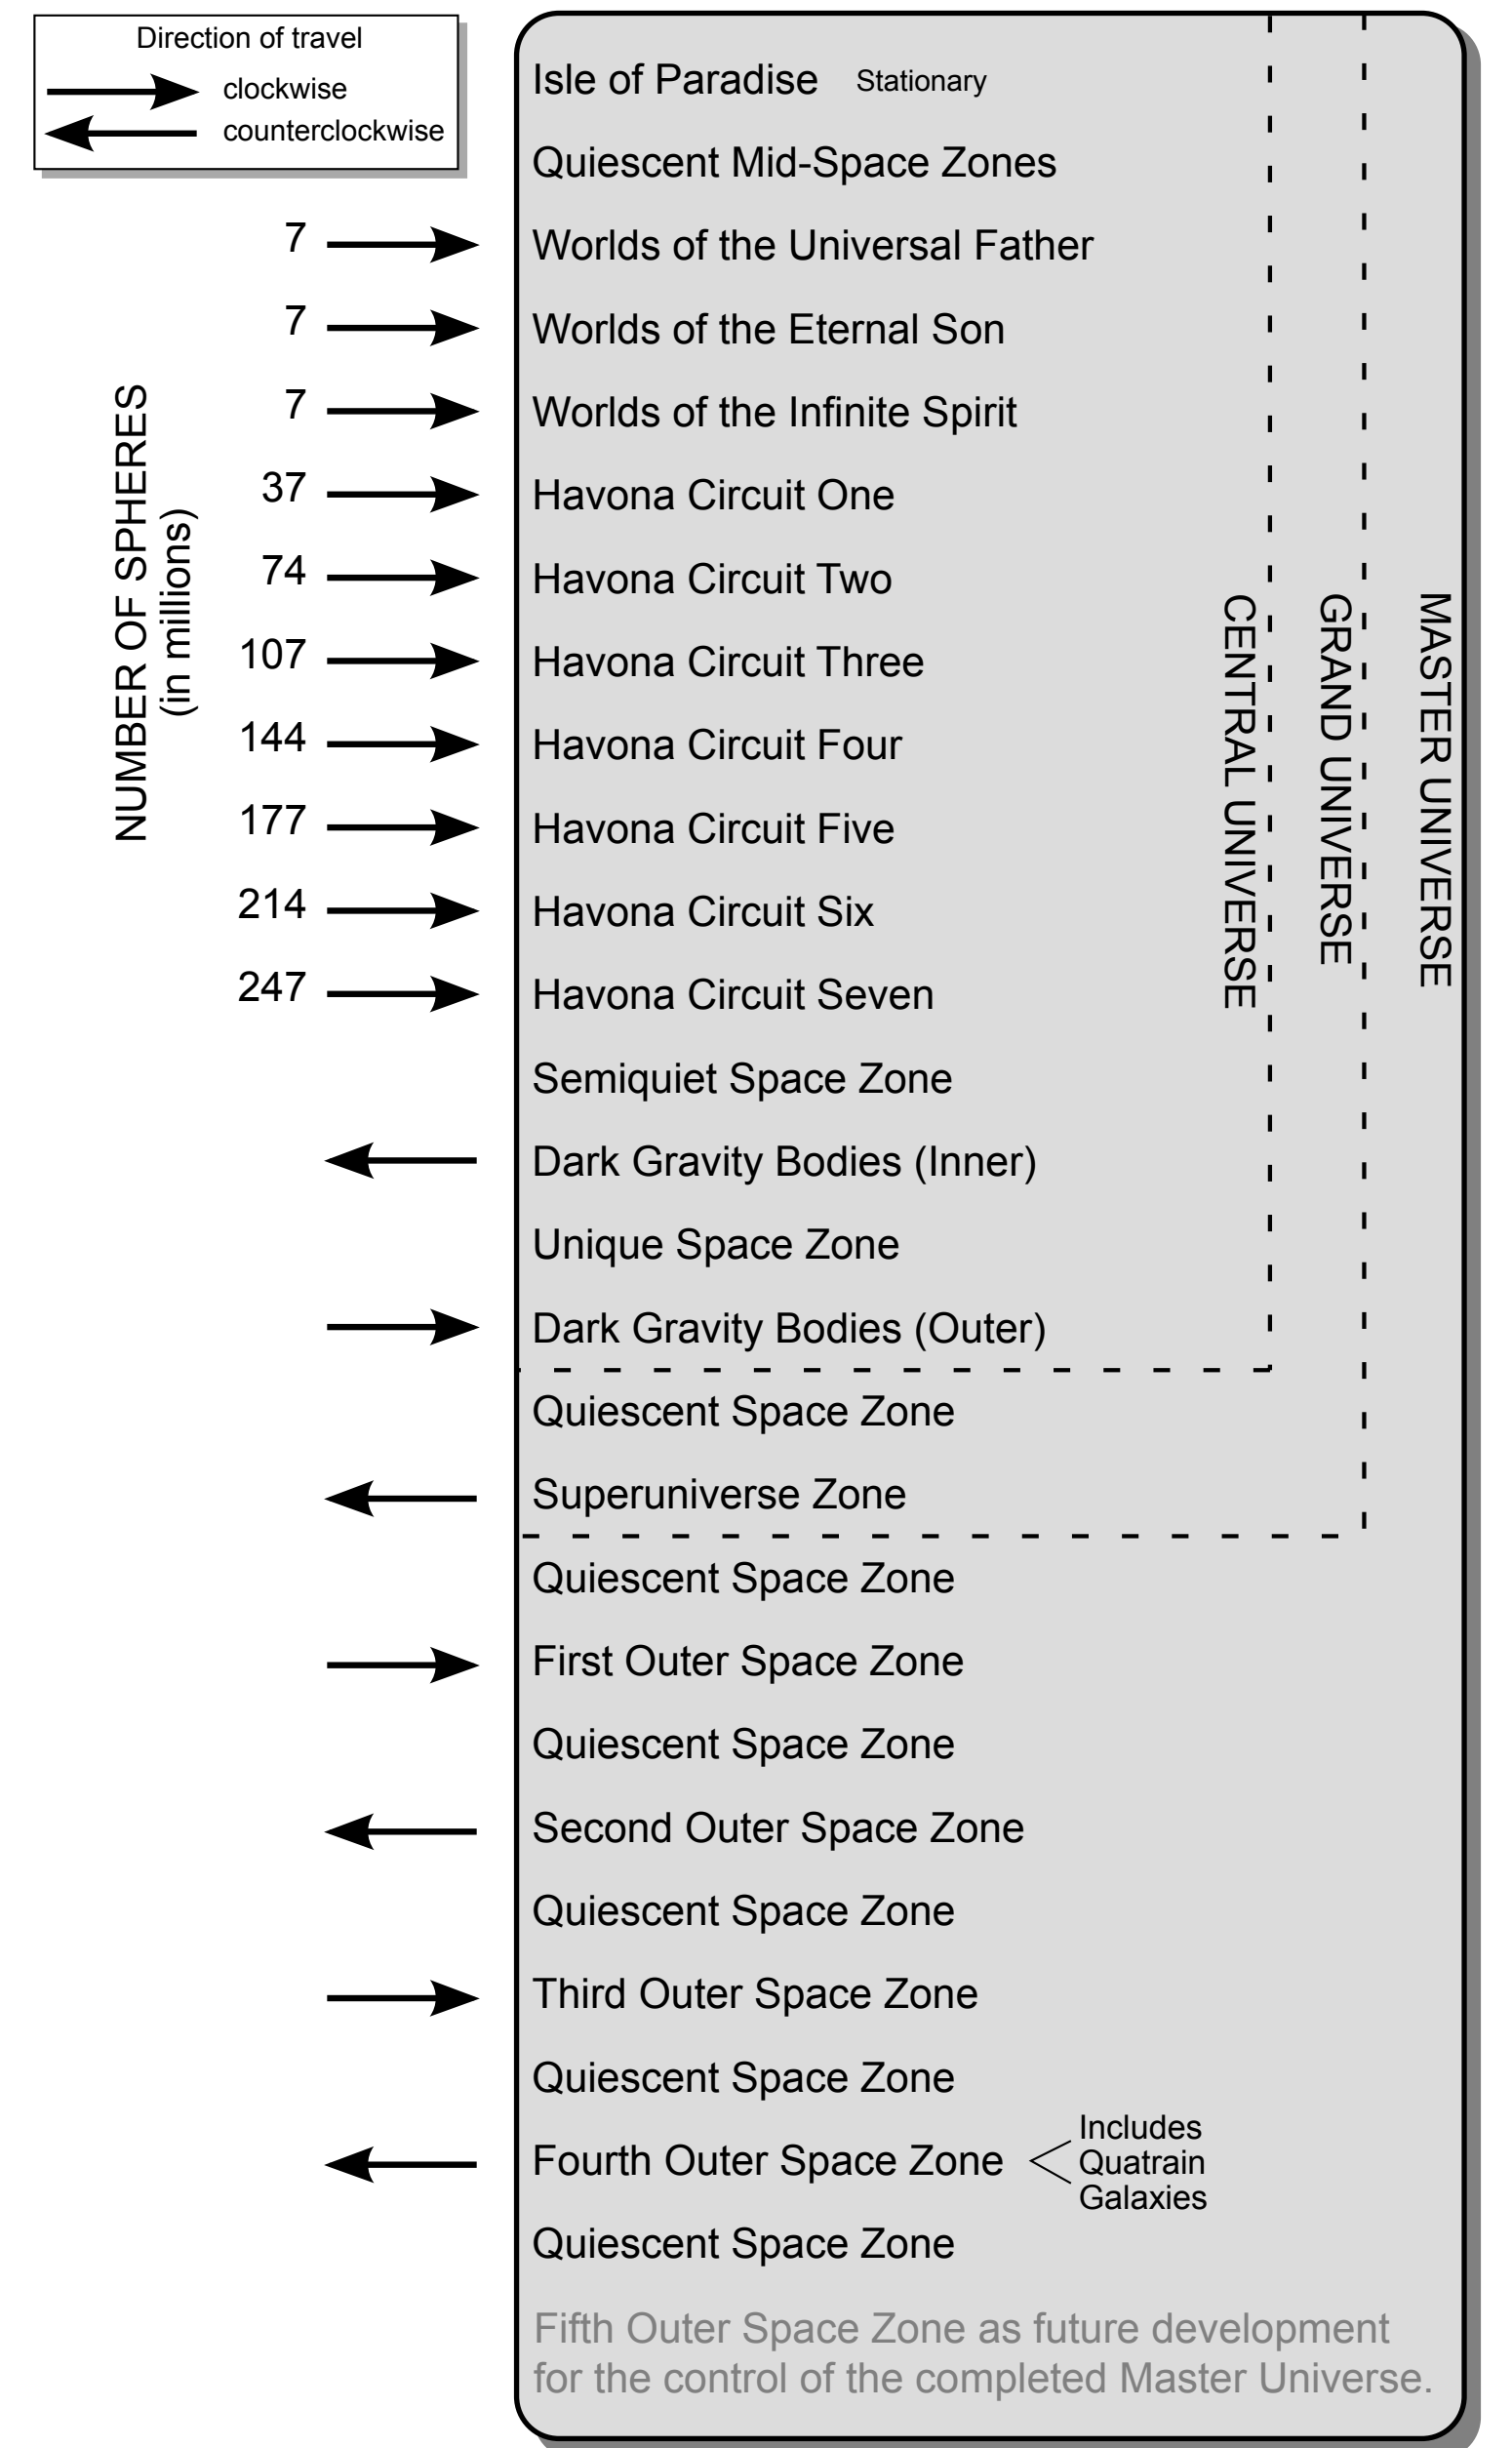

OSZ 5 has no space below the Central Continuum and what space there is shades into undefined gravitons into no-space which will extend to meet Havona someday.

Insofar as known OSZ 5 is Absolute and compliments the no-space position of Paradise by space entropy - the removal of space debris and space extensions is leveling the Master Universe into a short playing field of several trillion light years in its space dimensions and no distance eternity in its Absolute areas extending forward to Paradise once again.

The seeming ellipsoid space partitions of the Master Universe are drawn and cleaved down from their top to their bottom space extensions. The student need realize that these slices are complete ellipsoid-shaped donuts (flattened torus) around the Isle of Paradise as shown in the Top View.

THE VARIOUS SPACE & UNIVERSE LEVELS

The following plats of the Master Universe are given in accordance with the best information available today. These facts and dimensions involved are from the direct correlation of materials supplied to me by Rayson, who spoke through the Scribe, Ronald Besser, to prepare drawings to show the newly revealed purposes and shapes and distances involved in the Grand Universe and the imposition of the Master Universe as shown in accordance with further guidance from the Ancients of Days, situated on Uversa, the Capital of Superuniverse Seven, named Orvonton, and by expressed permission of Paradise, to allow the drawings prepared by Xavier, to show actual dimensions in certain cases.

I, Xavier, do process these drawings in accordance with the standards available to me from software loaned to me by the Spirit of Truth and the Spirit of Thought, both which are located on Salvington, and are hereby rescinded to my use so long as I am not instructed to provide additional drawings for the Science Officer, Rayson, and Avonal Son situated on Urantia at the time of the indictment of these drawings for purposes of education and use in laboratories throughout the planet of Urantia for now and for all future time, as that may be defined today or later.

I am Rayson, and I incline these drawings to be a fair representation of the actual facts disclosed to me in order to bring these drawings before the public for educational and other purposes of demonstration. In these disclaimers above me, I mention the Scribe, Ronald Besser, who is also assigned to me to partake of the lessons on Ultimacy and of the Absolute, views of time and space, and commend him for bearing with us, Rayson and Xavier, to present these drawings to the Universal Father on this date as they are corrected and prepared for publication on Uversa and Urantia. These words were indicted and the drawings edited and prepared for publication today, September 15, 2014, and to which I affix my Seal of Approval. I am Rayson, Science Officer and Liaison Officer to the Magisterial Mission.
