BIENNIAL OBSERVANCE OF CHRIST MICHAEL'S BESTOWAL

Volcano, Hawaii - #43

Precious friends, This is Veronica.

The bi-millennial observance of Christ Michael's bestowal is fraught with encumbrances that can cloud his message of hope. Yet, the permanent quality of the essence of truth cannot be disguised.

You are the keepers of his light that will pass the torch of verity to others that will create traditions of fraternal love and allegiance to truth. Adorn your evergreen of countenance with the delicate ornaments of compassion and understanding. Encircle your intentions with the lovely wreath of tolerance and discernment. Light the fragrant candles of mercy with the flame of forgiveness. Join the chorus of praise and adoration for the Source of your existence. Enjoy the Pentecostal gift by seeking the festive holiday lights in the hearts of one another. Make your promises of renewal and resolutions to strive for a deeper intimacy with the Divine Monitor that is nestled in the manger of your soul, and nurture this partnership.

The gifts of truth, beauty, and goodness will sustain you with divine providence and refresh your desire to give the most treasured gift of all--your entire will to the Father on this remembrance of the bestowal of his Creator Son. May His presence fill you with sublime peace and love for your sisters and brothers.

I give you the gift of my guidance and love. Thank you for the many opportunities to share these gifts with you. Good evening.
