

The Spiritual Universal Siblinghood of Nebadon

A Nebadonian Introduction To Urantia

Soul Art

I have been seeking a way to pacify and unite people all my life, and since I have discovered the Fifth Epochal Revelation, I have been thinking a lot about the evolution of The Urantia Movement, the Revelation, and the impossible unification of the three original (3) (The Urantia Foundation , The Urantia Fellowship & The Urantia Association International) organizations. This caused me to seek and search for a cosmic solution and found a way to awaken this in the souls of our siblings. The whole Revelation is about Unity! So, before we move in any *direction*, we should heed to this innate call to *unity*, because if we study the subtleness of its incentive, we discover that Unity is, The Fifth Epochal Revelations’ primary purpose, to correct the defaults, lies and sophistries of the rebellion and bring Urantia back into the fold, to awaken us to our universal cosmic family, brothers and sisters, Universal Siblings under *One Creator*.

As we are moving inward and onward there are many paths one can walk on, but with the Fifth Epochal Revelation in our hearts and the Adjutants’ Wisdom in Mind, we must keep our eyes on the cosmic weather (what we are receiving from on high/within, so to speak), and with the guidance of our angels and the direction of the Thought Adjusters, the Spirit of Truth will always say, “*this is the way*”.

We are not alone my siblings! Here is offered a clearing, a new horizon, our Supreme Destiny in the Holy/Infinite/Spirit. We have a lot of work at hand. Thank you for serving in any capacity that you can.

Having received, one must give, so here is the sequence in how *The Spiritual Universal Siblinghood of Nebadon* the **Manuscript** and the **Unity Proposal** were received. When you discover these, (see below), you may want to read the manuscript first, as the understanding of *The Spiritual Universal Siblinghood of Nebadon* revelation came to me first with the *Manuscript*, and then, I was compelled and guided to put together a *Unity Proposal* under this umbrella of The Infinite Spirit for our Universal Cosmic Family. It does not really matter either way you study them because they support each other, but make sure you read both entirely.

Spiritual Functional Unity

Our Understanding of The Purpose of The Fifth Epochal Revelation

The Spiritual Universal Siblinghood

As *siblings*, sisters and brothers, moms, and dads -- and I would say mothers and fathers, but there is only one Mother and one Father to all of us Cosmic Citizens having this Fifth Epochal Revelation on Urantia -- it is time and it is necessary for the good of all, that we should desire to **work together toward greater collaboration, coordination, and functional unity.**

A tool for the collaboration and communication of lightworkers is necessary and is now available for the betterment of the planet. The time has come for Urantia to have a spiritual planetary connection -- a functional unity -- centred in the application of the revelation's teachings, operating within and through *The Spiritual Universal Siblinghood* -- the manifestation of Christ Michael's "Kindom" kingdom without the "g") that Jesus was talking about. Siblings working together under the care of our Universal Creator, helping Michael and the Holy Spirit bring their creation to fruition -- we, us, you and me, their children -- the universal siblings, brothers and sisters, cosmic citizens united in Spirit -- just as our Co-Creator Parents are United.

The Spiritual Universal Siblinghood will bring individuals to be encouraged to work together on numerous projects, and all under one and the same direction to The One Creator of all on a united front consolidating and collaborating as one unified organism in Spirit, with multiple working Teams in specific units of operation. Each unit functioning with specific working *teams* at given tasks -- adaptable, subject to adjustments, susceptible to change -- will be transformed as the work evolves. This is the *basic blueprint* for all inhabited planets in our Universe as revealed to us in the Fifth Epochal Revelation.

Offered here is the way to produce your fruits of the divine spirit. Now, to know if this is your calling, bring in the stillness, the peace of spirit, and reflectively meditate in soul with your Mystery Monitor; recognize the authenticity in the meaning, and see the value in this service to Michaels' plan for Urantia and how you can be of service too! All are welcome from all spheres. Time of service -- always. Date of service -- now. This invitation also goes out to all our unseen friends and helpers (too many to mention) in our Universe of Nebadon and beyond, but first and foremost to all on planet Urantia.

In technical terms, *The Spiritual Universal Siblinghood* is like a nexus, a central magnet, with the power of attraction of the One Universal Spiritual Creator, with the Eternal Child (The Spirit of Truth) and through the Infinite Spirit, where we all come together to serve and work at producing our Fruits of the Spirit. It is time to focus on spiritual and functional unity in the spreading of the teachings of our privileged revelation, by living them, applying the universal pattern revealed and contained within the teachings, and in this way, we will truly be teaching, guiding, and leading our siblings on the universal path towards light and life.

All siblings/children of the *Fifth Epochal Revelation* are invited to come together and help bring us home; but *as of now with this introduction*, if you are receiving this invitation please reply with your feedback and input as to what you can bring to the growth, caring and evolution of this universal process in the making. Once the concept and its reality are understood, individuals will rejoice and be encouraged and guided to apply for a place of service in *The Spiritual Universal Siblinghood of Nebadon*. When Urantians dare to espouse the Master's program, thousands of apparently indifferent youths will rush forward to enlist in such a spiritual undertaking, and they will not hesitate to go all the way through with this great adventure of bringing to Urantia what we have known as -- the invisible Kingdom of God and now *The Spiritual Kindom of Love* descending on Urantia.

If the Christian church would only dare to espouse the Master's program, thousands of apparently indifferent youths would rush forward to enlist in such a spiritual undertaking as "*The Spiritual Universal Siblinghood*" and they would not hesitate to go all the way through with this great adventure. (cf. TUB [195:10.10](#))

The true church—the Jesus brotherhood—is invisible, spiritual, and is characterized by unity, not necessarily by uniformity. Uniformity is the earmark of the physical world of mechanistic nature. Spiritual unity is the fruit of faith union with the living Jesus. The visible church should refuse longer to handicap the progress of the invisible and spiritual brotherhood of the Kindom of God. And this brotherhood (because of the default, it could not be established) is destined to mutate and evolve into *The Spiritual Universal Siblinghood of Nebadon*, the living organism in contrast to an institutionalized social organization. It may well utilize such social organizations, but it must not be supplanted by them. (cf. TUB [195:10.11](#))

Christianity is seriously confronted with the doom embodied in one of its own slogans: "A house divided against itself cannot stand." The non-Christian world will hardly capitulate to a sect-divided Christendom. The living Jesus is the only hope of a possible Spiritual Unification of Humanity.

The Spirit of Truth came to us through Christ Michael's *living of that truth* as Jesus of Urantia -- He lived it within Himself as He walked upon our planet -- and this is now within reach for each and every one of us to also be true to our unique selves in our short lives here and to experience it, as it was for Him in His original experience as one of us. Picking up our cross is still available for every one of us in the understanding of *The Spiritual Universal Siblinghood* as it was for Him. After much inner communion in stillness with Christ Michael and the Holy Spirit, I have been compelled and accepted to reveal this *inspiration* of universal proportions that I picked up in mind in a very short period of Urantia time. One *eve*, I meditated before going to sleep as usual, but when I wanted to sleep, I could not. So, I got up and wound up sitting at a computer and started typing, and for the next couple of weeks, (which still boggles my mind when I think of it) I was compelled to put in writing what I was being given in my soul, and as we say, the rest is history!

We know that the peace of our Creator is only achieved with *goodness*, and so with the understanding that *The Spiritual Universal Siblinghood* recognizes and validates every personality's reality in the universe -- it harmonizes the various diversities of relationships on the planet and beyond into the one unified whole. In this way all loving and caring individuals involved in past conflicts with the difficulty of mind expansion, seeking unity and reconciliation, will have the opportunity to love, to be loved, and to heal at a personal level, working together in the *Siblinghood*.

The Spiritual Universal Siblinghood is already established in the hearts of His true children, and we will prepare the way for His coming. We now have a plan (the Fifth Epochal Revelation) brothers and sisters -- Christ Michael's Plan -- and we have work to do, so let us be about the business of *Divine Love* and be *active seeds of Spiritual Love*, working within our Holy Spirit and producing our *Fruits of the Spirit* to feed humanity, as Jesus admonished Peter. "Feed my lambs!"

Quotes to work with for a new and unifying message

"There must come a revival of the actual teachings of Jesus, such a restatement as will undo the work of his early followers who went about to create a socio/philosophical system of belief regarding the fact of Michael's sojourn on earth." [[170:5.19 \(1866.2\)](#)]

"The great hope of Urantia lies in the possibility of a new revelation of Jesus with a new and enlarged presentation of his saving message which would spiritually unite in loving service the numerous families of his present-day professed followers." [[195:10.16 \(2086.2\)](#)] * *The Spiritual Universal Siblinghood**

We know there is good in all religions, but unfortunately, the bad often overshadows the good. Nevertheless, there is hope because: First, each member of all of them has a Thought Adjuster, a fragment of the one Paradise Creator. Second, they are all beneficiaries of the same Spirit of Truth, the Spirit of Christ Michael. This spiritual connectedness allows us to speak the same spiritual language. But it requires a lot of patience, a lot of love, and a good deal of skill. Urantian (revelation-guided) philosophers, in contradistinction to a *Urantia-Book*-guided religion, must be a community of lightworkers that develop skilled philosophers and sends them out to bring equilibrium to the religious and scientific associations in their communities, enhancing their ideals and bringing them closer to Michael's ideals of freedom from humanmade world evolutionary religions with their mind-numbing creeds, credos, dogmas, and rituals.

In developing such a community, we can look at what occurred in the Adam and Eve schools. Those who were brought into the Garden were the higher minds of the surrounding tribes. They were not coming as permanent residents, and they were not set aside to be a new group outside of their communities. They came into the Garden of Eden to be educated and were then sent back to their own tribes and communities to uplift them. And that is the way worldwide biological upliftment was to occur. That can be the template for a spiritualized revelatory community. Those visitors to the Garden of Eden were no doubt trained on how to uplift their tribe members. We can only imagine what the training would have consisted of, but it would have included some

information on how to introduce *garden concepts* to the more primitive minds. They were not going back to their community to say, “Here is what I learned in the Garden of Eden!” They would be far more discreet. If simply telling what they learned in the Garden of Eden was appropriate, the entire tribe could have gone to the Garden of Eden school and learned it firsthand. But that was not how it was done. Instead, they were no doubt taught an art – the *art of bridging the garden concepts* with their tribal traditions.

Utopia

The *garden pattern*, template as we say, was for biological/cultural upliftment, not religion. Applying that pattern to try and establish a new religion that would incorporate uplifting other religions is Utopia, and just targeting Christians of all denominations seems to be even more Utopian. What about all our other siblings on the planet involved in many other religions?

As the words often used are important for those who cannot discern their spiritual meaning in the moment, you may consider recognizing yourselves as spiritual ideological uplifters, community workers, Faith Siblings of your Creator seeking spiritual unity and not religious unity.

To achieve that, *philosophy* is what needs to be a priority for humanity to progress and to recognize the need for religion and science to be unified -- by/with/and in a spiritual philosophy of living -- for a society to grow and thrive with well-balanced personalities.

Playing around with the existing religious beliefs of the day from past human evolution is a game you can play, but trying to [put new wine in old skins](#), is not, what Jesus teaches.

So, you see, thinking you can create a new religion that will satisfy the needs of Christianity or any other religion for that matter, is not needed. What all siblings need, is to awaken to their *personal* relationship with their connection to their Creator within their soul that is pure, where their spirit dwells, and to remember that the only reason *the spiritual presence of the Creator* is in the church/mosque/shrine/ temple or even a forest or any natural environment they attend and worship, is because *they* are there. God dwells in human temples and not in cold concrete churches/mosques/shrines or stone temples of any kind -- that is what they need to know. They bring *the spirit* to the church/mosque/shrine/temple or to a space in nature! The Spirit is within us every moment, anywhere and everywhere and the only way to reach spirit and understanding of life is within ones *Soul, through Mind*.

Spiritually guided community gatherings have the same value as any religious cult gathering and have the potential of practicing the actual teachings of Jesus. Spiritual community living is what is needed in contradistinction to organized religious living; the religious part of human life is in communion with one’s Creator, as Jesus taught, “worship the Creator in Spirit”. Religion is not a human made organization; religions are! The word *Religion* means, and is, the symbolic word defining one’s relation to our Creator in communion with our Spirit within, and that is a personal relationship. We need not adhere to any form of a human-made god or religion, we need to empathize and share our Personalities on a Soul level where our Spirits Commune and elevate our

awareness, all the while mutually getting more Understanding of Personality as we feed our Souls and grow.

Spiritually Induced Philosophy

In the ministry, you will encounter obstacles to your endeavours often because of conceptual wording, and to demonstrate my understanding (even though he corrupted the teachings of Jesus, (I don't take Paul/Saul too seriously) but here is one saying that Paul of Tarsus wrote, "the letter kills, but the Spirit vivifies, gives life" (Ironic, as he wrote many letters). As I was studying mainstream religions, including the bible in my youth and later on for years, that observation touched my *spirit*, and while studying it, my spirit revealed what it meant and I understood it and it dawned on me that when I listen to the Spirit of Truth while studying, it's not the words used to express a thought, concept, or religion that matters, it's the *Spiritual* meaning, *the Essence* from the *Soul* that reveals the message of the *personality*. Knowing that the true meaning and reason behind the words used are often not the literal definitions, I now listen to what the person is meaning with their wording, and even more so from what intellectual/culture *place* they come from in mind, as to understand them better. (i.e., the reasoning for using the word *place* here, meaning from what *mindal source* my sibling is relating from). If we only live by the letter, as in words, we will miss the meaning of the Spirit expressing those words through a sibling, or a book. Know that the Spirit speaks not with words only but with *the Word and the Number* (The Quality and the Quantity) unified in Soul for Supreme understanding.

There are so many similar trains of thought with different approaches and views regarding where the different words and their meanings are coming from. The same word can mean many things depending on its source.

So, if anyone seeks advice, you listen to (meaning empathize with) that personality long enough that you are given the answers "It" needs for its own path/soul growth. What do you do? All you can do is share what you have for and with them. Some may gain from it, and some will not recognize it, and some will reject you, but rest assured -- if they choose to survive in time and eternity, then what they received from you will be part of them for eternity and they will recognize then that you are also a Beloved piece of the Grand Puzzle, a Child of the Supreme. Be at Peace, I give you my Peace, said Jesus

If they choose not to survive, then you know that you have had a true communion with that Thought Adjuster who will eventually fuse with another personality and will surprise you on your infinite journey in eternity.

Mechanical inventions and the dissemination of knowledge are modifying civilization; certain economic adjustments and social changes are imperative if cultural disaster is to be avoided. If this new and upcoming social order will not settle down complacently for a millennium, do you think your organization will or can survive a millennium? Humanity must become reconciled to a procession of changes, adjustments, and readjustments. Humankind is on the march toward a new and unrevealed planetary destiny.

Trinity Teachings

The Triune Way of Understanding

Philosophy of thinking: *intuition, reason, and wisdom*

Ethics: *personal morality, social equity, and divine ministry*

Phenomenology: *perception, recognition, acknowledgment*

Phenomenology is commonly understood in either of two ways: as a disciplinary field in philosophy, or as a movement in the history of philosophy. The discipline of phenomenology forms one basic field in philosophy, among others. How is phenomenology distinguished from, and related to, other fields in philosophy?

Traditionally, philosophy included at least four core fields or disciplines: ontology, epistemology, logic, and ethics. Suppose phenomenology joins that list. Consider then these elementary definitions of field:

- Ontology is the study of beings or their being—what is.
- Epistemology is the study of knowledge—how we know.
- Logic is the study of valid reasoning—how to reason.
- Ethics is the study of right and wrong—how we should act.
- Phenomenology is the study of our experience—how we experience/how we live. (as in how Jesus lived His Life)

It Is Here Now!

The Kindom of God is at Hand

The Spiritual Universal Siblinghood

“The religious challenge of this age is to those far-seeing and forward-looking humans of spiritual insight who will dare to construct a new and appealing philosophy of living out of the enlarged and exquisitely integrated modern concepts of cosmic truth, universe beauty, and divine goodness.

Such a new and righteous vision of morality will attract all that is good in the human mind and challenge that which is best in the human soul. Truth, beauty, and goodness are divine realities,

and as humans ascend the scale of spiritual living, these supreme qualities of the Eternal become increasingly coordinated and unified in our Creator, who is Love.” [2:7.10 (43.3)]

“All truth — material, philosophic, or spiritual — is both beautiful and good. All real beauty — material art or spiritual symmetry — is both true and good. All genuine goodness — whether personal morality, social equity, or divine ministry — is equally true and beautiful. Health, sanity, and happiness are integrations of truth, beauty, and goodness as they are blended in human experience. Such levels of efficient living come about through the unification of energy systems, idea systems, and spirit systems.” [2:7.11 (43.4)]

“Truth is coherent, beauty attractive, goodness stabilizing. And when these values of that which is real are co-ordinated in *personality* [emphasis added] experience, the result is a high order of love conditioned by wisdom and qualified by loyalty. The real purpose of all universe education is to effect the better coordination of the isolated child of the world with the larger realities of his expanding experience. Reality is finite on the human level, infinite, and eternal on the higher and divine levels.” [2:7.12 (43.5)]

Spiritual Universal Cosmic Unity

“One of the most eventful of all the evening conferences at Amathus was the session having to do with the discussion of spiritual unity. James Zebedee had asked, “Master, how shall we learn to see alike and thereby enjoy more harmony among ourselves?” When Jesus heard this question, he was stirred within his spirit, so much so that he replied: “James, James, when did I teach you that you should all see alike? I have come into the world to proclaim spiritual liberty to the end that mortals may be empowered to live individual lives of originality and freedom before God. I do not desire that social harmony and fraternal peace shall be purchased by the sacrifice of free personality and spiritual originality. What I require of you my apostles, is *spirit unity*—and that you can experience in the joy of your united dedication to the wholehearted doing of the will of my Father in heaven. You do not have to see alike or feel alike or even think alike in order spiritually to *be alike*. Spiritual unity is derived from the consciousness that each of you is indwelt, and increasingly dominated, by the spirit gift of the heavenly Creator. Your apostolic harmony must grow out of the fact that the spirit of hope of each of you is identical in origin, nature, and destiny.” [141:5.1 (1591.6)]

“In this way, you may experience a perfected unity of spirit purpose and spirit understanding growing out of the mutual consciousness of the identity of each of your indwelling Paradise spirits; and you may enjoy all of this profound spiritual unity in the very face of the utmost diversity of your individual attitudes of intellectual thinking, temperamental feeling, and social conduct. Your personalities may be refreshingly diverse and markedly different, while your spiritual natures and spirit fruits of divine worship and sibling love may be so unified that all who behold your lives will of a surety take cognizance of this spirit identity and soul unity; they will recognize that you have been with me and have thereby learned, and acceptably, how to do the will of the Creator in heaven. You can achieve the unity of the service to our Creator even while you render such service in accordance with the technique of your own original endowments of mind, body, and soul.” [141:5.2 (1591.7)]

“Your spirit unity implies two things, which always will be found to harmonize in the lives of individual believers: First, you are possessed with a common motive for life service; you all desire above everything to do the will of the Creator in heaven. Second, you all have a common goal of existence; you all purpose to find the Creator in heaven, thereby proving to the universe that you have become like him.” [[141:5.3 \(1592.1\)](#)]

“Many times, during the training of the twelve, Jesus reverted to this theme and repeatedly told them it was not his desire that those who believed in him should become dogmatized and standardized in accordance with the religious interpretations of even good men. Again and again, he warned his apostles against the formulation of creeds and the establishment of traditions as a means of guiding and controlling believers in the gospel of the kingdom.” [[141:5.4 \(1592.2\)](#)]

And now, **The Kindom Gospel** which is, **Seek the Spirit of Truth as you Serve and Love Humanity while passing by, on this Bridge we call Urth**! Have Faith and have it for yourself. Remember that *Beliefs fixate, but Faith liberates.*
