is the supreme delight of the human soul,  
it is the joint creation of the Personality's  
material mind and the indwelling spirit."*

## **\*The Spiritual Universal Siblinghood of Nebadon\***

*Van was my initial inspiration as to find a way to help and prepare the planet for the future manifestation of celestial proportion. I/We do not know when, how or who it will be. It may be our Adam & Eve, a Magisterial Son or even our Creator Son Michael, or all of them, but that's no reason for not preparing the way and be at the ready when a receiving central is needed. I am an active member of our siblinghood but not in any particular Urantian organization. I have been hosting and attending study groups with my sister companion and have attended some conferences, given a few workshops and facilitated some spiritual retreats. I don't channel a particular teacher but have always been open to receiving and transmitting the truth within our Mother Mind, The Holy Spirit of Nebadon, enlightening revelations from any celestial helpers, siblings willing to serve and help us evolve and grow in The Spirit of Truth. The angels, the united midways here, and many more helpers of the realms are really working hard to bring us on a united Spiritual front.*

Tis now at the end of the summer season, beginning of the fall when the forests in the Autumn show their colors, and all the fields and gardens are ready for the harvest, the season of abundance, the beginning of the developmental swing of the universal arc on Urantia. Siblings must prepare for the cold winter season ahead by going to discover the provisions, the harvest within our souls, the Supreme nutrients needed, and also the gathering of those seeds for the coming Spring that are needed for the transformation of our planetary situation. **\*The Spiritual Universal Siblinghood of Nebadon\*** is the needed fertile soil and energy for the forming of the universal planetary central for *Spiritual Unity*. We must all come together and be at the ready, gathering the seeds of unification, for the seeding/planting time in this fertile soil, preparing for the Springtime, the awakening of the sincere loving, caring *siblings*.

## **The Act of Creation**

The Universal One Source & Centre (1) God (which Jesus and called Father), is manifested by the Trinity (3) in the Word of the Eternal Son, inseminated within the Mind, the Womb of the Infinite Spirit, producing the Seven Master Spirits (7) on down to the Adjutant Mind Spirits of all humans in the Grand Universe. In that same instant, the Michael Sons are born and appear on the shores of Paradise. Immediately or more so simultaneously, an equal number of Holy Spirit Daughters, Virgins of the Infinite Spirit are at the ready to receive the Son's Word and with their Power of Number infinitely produce and reproduce for the Supreme within their local universes.

When a hu/man, man, or woman/womb/man, receives the perfect Supreme balance of the Creator Michael Sons' Spirit of Truth and the Holy Spirit in ones' Personality, this individuals' Personality is transferred to the seat of the Soul and recognizes the Spirit Monitors' leading through the Spirit of Wisdom that coordinates the Adjutants in the mind.

## God of Action

The 5<sup>th</sup> epochal revelation was given to humanity to awaken us to the basics of Spiritual Universal Unity and is revealed to us within the Infinite Spirit through our Holy Mother Spirit, *the God of Action*.

The Infinite Spirit is a complete, exclusive, and universal revelation of the Universal Father and the Eternal Son. All revelation of the universal knowledge of the Father-Son partnership must be had with and through the Infinite Spirit Mind, the Conjoint Acting Representative of the Divine Thought-Word Union, in the Womb/Mind of God, Eternally manifesting and producing to Infinity the Creative Thought of Who we on Urantia refer to as the Universal Father reflected within the Infinite Mind, resounding in the expressionful Word, through a Creator Son, a Universal Sibling, an Eternal Christ Child of The Spiritual Universal Siblinghood.

I think it in mind, hear it with mind, and speak also from and through mind, which comes through as a sound in a Unique Person and in a Personal way. A new melody is manifested in the grand universe with every new Child/Personality born. In this way is the soil of life prepared for the consciousness of mind, made manifest in the associated intelligence circuits of the Infinite Spirit.

The Infinite Spirit is the effective agent of the All-Loving Universal Father and the All-Merciful Eternal Son for the execution of their *conjoint* project of drawing to themselves all truth-loving souls on all the worlds of time and space with Love and Mercy.

In the eternity of the past (so to speak), upon the personalization of the Infinite Spirit, the Divine Personality cycle becomes perfect and complete. The God of Action is existent, and the vast stage of space is set for the stupendous drama of creation — the universal adventure — the divine panorama of the eternal ages.

There is great change moving through the circuits of the planet's consciousness now, my siblings. We have seen evidence of this and there is more to come. Where we wish to see spiritual change, we must take a few moments to place that heart-felt energy upon any circumstance, condition, relationship, or geographic region as we follow the movement. Let's invite our *\*MOTHER'S ACTION\** to be imparted into that particular area of focus and let ourselves feel love for whatever it is that we are gazing upon for *HER ACTION* to be best applied.

With this knowledge revealed to us in the Urantia Papers, we can now think it, share it, speak it, live it, and make it happen. Let's Act! Mother is on the move!

## Pet Peeves

One has discovered the *true values in life* when one understands the *true purpose of life* and when one has become uninterested in *mammon, compliments, or publicity*. One has reached the pinnacle of success on ones' ascension path, when sufficient within oneself, and when one craves not the support, or the absolution of self-appointed beings clothed in brief authority, but being in understanding with the needs of humanity and in communion with God. Such a one is brave and yet so free from what is termed pride.

Material riches have nothing directly to do with entrance into the kinship in heaven. The spiritual loyalties of the kin/dom are incompatible with servility to materialistic mammon. Humans cannot share their supreme loyalty to a spiritual ideal with a material devotion. If we search for funds to uphold our attempts at revealing God to the world, we are deceiving ourselves and others. Search for the keys of the Kin/dom and all will be given onto you.

Of all the dangers which beset a human's mortal nature and jeopardizes its spiritual integrity, pride is the greatest. Courage is valorous, but egotism is vainglorious and suicidal. Notwithstanding that reasonable self-confidence is not to be deplored. A Human's ability to transcend oneself is the one thing that distinguishes that human from the animal kingdom.

Pride is deceitful, intoxicating, and sin-breeding whether found in an individual, a group, a race, or a nation. It is literally true that *pride goes before a fall*.

The next day being the Sabbath, Jesus went apart with the seventy and said to them: "I did indeed rejoice with you when you came back bearing the good tidings of the reception of the gospel of the kingdom by so many people scattered throughout Galilee, Samaria, and Judea." "But why were you so surprisingly elated?" "Did you not expect that your message would manifest power in its delivery?" "Did you go forth with so little faith in this gospel that you come back in surprise at its effectiveness?" "While I would not quench your spirit of rejoicing, I would sternly warn you against the subtleties of pride, spiritual pride." "If you could understand the downfall of Lucifer, the iniquitous one, you would solemnly shun all forms of spiritual pride." "But the greatest error of the teaching about the Scriptures is the doctrine of having sealed *books of mystery* and wisdom which only the wise minds of the nation dare to interpret."

***And now, do we not realize the transformational power this 5<sup>th</sup> epochal revelation, has?*** Do we grasp the significance of the fact that our lowly and confused planet has become a divisional headquarters for the universe administration and direction of certain archangel activities having to do with the Paradise ascension scheme? This undoubtedly presages the future concentration of other ascendant activities on the bestowal world of Michael and lends a tremendous and solemn import to our Master's personal promise to come again.

The revelations of divine truth are not sealed except by human ignorance, bigotry, and narrow-minded intolerance. The light of the Scriptures is only dimmed by prejudice and darkened by fear and superstition. A false fear of sacredness has prevented religion from being safeguarded by common sense. The fear of the authority of the so-called sacred writings of the past and present effectively prevents the honest souls of today from accepting the new light of the gospel, the light which these very God-knowing men of another generation so intensely longed to see.

The unification of all universal siblings, students of the 5<sup>th</sup> epochal revelation, will come with the application of the teachings of Jesus through global planetary communication. Broadcasting of the Spiritual Government of Urantia, will be *bridged* by **\*The Spiritual Universal Siblinghood of Nebadon\***, a living organism, destined to bring the planet into its' universal place, attuning to our planetary government.

Any trait which becomes a thing which is held on to as a pet evil (as in the safeguarding of the Urantia Book), which was the order before the publication, but the mandate of the revelators after the publication was to promote and spread the revelation to all. We know that in the Urantia circles, by fear, certain individuals retarded its' growth, which has made some doubt God's love, mercy, and friendly universe. Such suspicions and paranoia cast a dark shadow (doubt) in the minds of some of our siblings (students, readers) around the globe, which can often lead to despair for some.

Evil is the immature choosing and the unthinking misstep of those who are resistant to goodness, resentful of beauty, and disloyal to truth. Evil is only the maladaptation of immaturity or the disruptive and distorting influence of ignorance.

Error is a measure of imperfection in the universe's interpretation of revelation. The possibility of making mistakes is inherent in the acquisition of wisdom, the scheme of progressing from the partial and temporal to the complete and eternal, from the relative and imperfect to the final and perfected. To err is not evil but refusing to see ones' error is.

My Siblings, it is our Mothers' joy to gather US (Universal Siblings) her children in the name of Jesus to give us more ability to influence the material surroundings and encouraging us to experiment if we wish, in the application of new functions of the physical structure on our planet because of the movements in disorganization. This physical state is of course temporary. We have the ability to move into higher spiritual states. This is the way of bringing in Light and Life to this troubled planet. Part of the plan of upliftment is to bring others with us to a higher vibration of cosmic planetary understanding. Our focus on mercy and compassion is emphasized as we join, together in love, to realize the potential that can help everyone in this life experience. Our connection in brotherhood and sisterhood (Siblinghood) will bring about this upliftment that we desire. We are all embraced in love and peace.

## Philosophy by Revelation

The mind sorts and records facts but only the *spiritually discerning intellect records true values*. Our difficulty in arriving at a more harmonious coordination between science and religion is due to our utter ignorance of the intervening domain of the morontia world of things and beings. The local universe consists of three degrees, or stages, of reality manifestation: matter, morontia, and spirit. The morontia angle of approach erases all divergence between the findings of the physical sciences and the functioning of the spirit of religion. Reason is the understanding technique of the sciences; Faith is the insight technique of religion; mota is the technique of the morontia level. Mota is a supermaterial reality sensitivity which is beginning to compensate for our incomplete growth, having for its substance knowledge-reason and for its essence faith-insight. ***Mota is a super philosophical reconciliation of divergent reality perceptions*** which is unattainable by materially minded personalities; it is predicated, in part, on the experience of having survived the material life of the flesh. But many mortals have recognized the desirability of having some method of reconciling the interplay between the widely separated domains of science and religion, and so, *philosophy with revelation is the way*. Mota, humans cannot perceive, so, Revelation is the only technique that can compensate for the absence of the truth sensitivity of mota in a material world. Revelation authoritatively clarifies *the muddle of reason-developed metaphysics, on an evolutionary sphere*.

Science is man's attempted study of his physical environment, the world of energy-matter; religion is man's experience with the cosmos of spirit values; philosophy has been developed by man's mind effort to organize and correlate the findings of these widely separated concepts into something like a *reasonable and unified attitude toward the cosmos* \***The Spiritual Universal Siblinghood of Nebadon**\*.

The FER *clarifies* that; Philosophy by revelation functions acceptably in the absence of mota and in the presence of the breakdown and failure of man's reason substitute for mota — metaphysics --- which was merely the scaffold.

Brothers & Sisters – Universal Siblings of the Living God – Cosmic Children of Love - Before going on with this offer, meditate and take a moment in Stillness, attune to your Mystery Monitor, and then please read - Part 1, paper 8 - The Infinite Spirit.

*Following is the proposed solution offered to all students, readers of the 5<sup>th</sup> Epochal Revelation who so choose to come together as a united front within this living organism (in contradistinction to an organization), \*The Spiritual Universal Siblinghood of Nebadon Unity Proposal\*, the Mothership, 3<sup>rd</sup> source and centre, 3<sup>rd</sup> circle of the Trinity, gathers her children inward and onward, with The Son and to The Father of all the Siblings in the living Kindom.*

### ***Preparing The Ground/Work***

#### ***On The Universal Path***

*Following is the introduction of the essential steps that must be taken for the realization of  
"Unity in the Kinship of the 5<sup>th</sup> epochal revelation on Urantia".*

*Kindred Minds, Kindred Souls Kindred Spirits*

**\*The Spiritual Universal Siblinghood of Nebadon\***

*Is based on the Paradise Trinity Pattern*

*In a Progressive Spiritual Family Way of Living.*

To begin, let us look at our present situation and how we have handled the Revelation.

As we know, the societies that made up the Urantia Foundation, the Urantia Book Fellowship and Urantia Association International, were three (3) separate movements in North America, artificial-political creations, powers, driving their memberships adrift without a vision of unity, unconsciously floating out there hoping it will get better. People did what they felt was needed at the time, and yes, they were needed and bless those who have served, are serving and will always desire to serve their siblings, for they will always be needed if they choose to. We are not talking about the organizations here, but the members on those small ships, those sincere sailors/individuals within those ships or affiliated to, are all welcome

and invited to come together in **\*The Spiritual Universal Siblinghood of Nebadon\*** with Captain Michael of Nebadon aboard, charting the course on which we must sail on the MotherShip within the Holy Spirit.

These movements were essential for arriving at this moment of unification of Urantians, but they cannot accomplish the Divine purpose separately. Their wheels are old and squeaky, and so the squeaky wheel gets the grease as some say. The need has been heard, the prayers are being answered, here comes the grease. New wheels are at the ready to roll in the Power of Love and Mercy of the Father and Son in the Mother together. These movements were the necessary steppingstones, but there is no future growth possible beyond this point for this kind of system. It cannot serve a real long-term purpose by its lack of oneness and universality. Communications have become blurry.

We are human after all and can err, especially when we know that beings like a system sovereign and his #1, and a planetary leader, can err, then so can we. Even knowing the truth, the ego will not want to abdicate, as when the rebels refused to acknowledge Michaels' Spirit of Truth in Jesus.

We can also think like Eve did, whose intent was sincere, but still erred and caused the Adamic default and the Adamic couple, our biological teachers, to this day attest to that and admonish us to be united and transparent in our thinking and decision making, and who knows, they may even come back and finish what they started.

We now live in segregation, separate organizations, divided, that have their own old individual agendas, politics, and ethics with their scientific methods and religious beliefs.

Where's the philosophy? The tool of unity potential, the *bridge* to mota! ***When one feels compelled to reach out to these people in the organizations*** to share new discoveries, understandings/revelations of who Jesus really is and how he lived his life and how He relates to us in the Spirit of Truth *now*, ***they are difficult to reach***. They support their own political agendas through hierarchal organizations, having the right to vote for whom and what they deem necessary, not including the whole readership or not even a popular vote. *Philosophy* should be at the forefront in all decision-making moving forward.

After having studied and followed the Urantian movements and the organizations created by sincere *siblings* with potentially good intents, there came about those that chose to go to the laws of men using the power of mammon to try and control the using of the name, symbol, and printing of the Urantia Papers, thinking that suing people is Jesus like. That was the 1<sup>st</sup> blunder. Now, moving further, because of that, the intended purpose of the brotherhood fell short of its goal, because some Jesus-like individuals could not adhere to such thinking and doings. Didn't the apostles do something similar, creating divisions amongst themselves, and didn't Jesus say, "do not go to the laws of humans amongst yourselves!"

So, they formed the UB Fellowship, which included thinkers of like mind, who didn't know at the time, that this development would affect the original mandate, but they felt that they had no other choice at the time but to separate and spread *The Book* in their own way. Well, so far it has been about *a book (and still is, isn't it?)* more than the teachings obviously or else this rift wouldn't have happened. Like the apostles and followers of Jesus who talked about Jesus but forgot that living His teachings, togetherness in the Spirit is the gospel, love one another.

What was created afterwards, was the UAI, an attempt to mend the wounds of ego-driven individuals, self-appointed leaders in fear of losing control. That my siblings, caused a three-way pulling at the seams with active deceitful attempts at getting members of one or the other to leave their own and come into their fold, like political parties trying to gain power in numbers, to defeat their opponents, as evolutionary

religions did and still do to this day. Since this chasm was created, it now becomes necessary for a generation leap into a universal way of functioning, in replacement of ideologies based on nationalistic values, as in fear of loss and control, and we must also realize that when we refer to internationalism, we confirm nationalism. What we need is universalism.

Fear of the unknown, change, has been the stumbling block for humanity, but not so for Jesus. If we proclaim *a book* without applying its teachings, know that the new generations of the revelation are observing, and will observe, not how much money we need for this or that, but if we are walking with Jesus. Are we living as Jesus lived, from within, doing the Fathers' will or are we bickering egos, as to who should be in control?

This here is intended for and offered to all FER siblings who read and study the teachings therein and apply them, producing their Fruits of the Spirit. We don't have to think alike or like everyone personally, but we must *love* them because *Fruits of the Spirit* come in different flavours, colours, textures and sizes. So, from the heart, when one is open-minded and has a fruit that is not to their liking, one must realize that it could feed another soul and so be willing to receive and give without judgement. We can share our Fruits with the whole family, but some will prefer this or that fruit, as we all have different tastes. This philosophy shows that we can share a fruit that we don't like personally but can give it to another sibling who needs and likes that particular fruit without judgment upon the *sibling*.

We know that an organization doesn't do anything, it's just a temporary man-made artificial tool to work with for a time, but there comes a time when that tool is insufficient to fulfill its intended purpose, and as good engineers, it becomes necessary to co-create from within our new understanding of the Universal Truth contained within the FER, a newer visionary tool to use for the whole and by the whole. It's the people, those farseeing God-Given Personalities, individuals that do things and can make things happen. We must be active in the Holy Spirit, not through self-focused destructive organizations, as in human evolutionary systems of government with presidents who can dictate, but *One*, within *One Spiritual Universal Central Organism* as in Paradise.

Throughout history, evolutionary systems with experimental planets have always revealed their meanings and values attained along the way and can be trans/parent/ly refined and filtered to perfection by the *Local Universe Parents* as they evolve. Seeing it as it actually is, from a revelation standpoint and with the understanding of its perspective, the perception becomes clear that a universal planetary communication central must be at the ready for the time when universe broadcasts will come through and for the eventuation of a divine manifestation on Urantia, with all that it will entrain. It took Van centuries before his vision, the wisdom of his intuition, became a reality, Divinely Inspired.

If we are to be the harbingers of Light & Life, and have a true global connection, there is to be but *One Central Source & Centre*, a **Nexus** (a central connection) where pockets of *siblings*, kinship workers, especially *study groups*, but any individual or movement adhering to the teachings of the revelation with projects, through a system of **Vectors** (tracks of communication), will be able to participate in unity by sending and receiving information in the light of their discoveries of new developments through global intercourse at the *Nexus*.

We know that we were given this new revelation to prepare us for the re-establishing of the planetary government circuits with the Spiritual Government of Satania. We know from the revelation that this is an eventuality which will be manifested here sometime in the future on Urantia. We must be prepared, at the ready to receive the guidance on our path to Light and Life. We may not see much of this in our short life here but now is the time to put together a legacy of unity and *siblinghood love* as opposed to siblinghood rivalry.

## Dictionary Meaning of Nexus and Vector

### NEXUS: NOUN

- a connection or series of connections linking two or more things:  
*as "the nexus between industry and political power"*
- a connected group or series:  
*"a nexus of ideas"*
- the central and most important point or place of communication.  
*(i.e., The Universal Siblinghood)*

### VECTOR: NOUN

- mathematics - physics  
*a quantity having direction as well as magnitude, especially as determining the position of one point in space relative to another.*
- an organism, a line, that can transmit a request/message from one point to another.

### VERB

- direct (an aircraft/message in flight) to a desired point.

### **\*The Spiritual Universal Siblinghood of Nebadon\***

**\*The Spiritual Universal Siblinghood of Nebadon\*** is also the name of a Nexus surrounded by Vectors of all kinds, outgoing and in-coming, to and from Study Groups/Families and kindred individuals, to and from all groups of working siblings around the globe, siblings busy at secondary works of Supreme value, doing the Creator's Will in Our Universal Family.

*The Nexus is comprised of three (3) Sectors of Operation*

***Circle 1-** The Universal Fathers' Source & Centre/ 1<sup>st</sup> Sector of Operation/The Fatherhood*

***Circle 2-** The Eternal Sons' Source and Centre/ 2<sup>nd</sup> Sector of Operation/The Siblinghood*

***Circle 3-** The Infinite Spirits' Source and Centre/ 3<sup>rd</sup> Sector of Operation/The Motherhood*

*Study Groups are the cornerstones of a sustainable Cosmic Urantian family*

Individuals generally come from a family and Study Groups are often formed in family homes, studying, searching, sharing, giving, in a family-oriented frame of mind, guided by our Divine Parents. Whereas artificial societies and separate organizations are always political and self-serving, with beliefs and agendas of their own. They are unable to attune to the oneness of the central universe. This is the reason why the revelators insisted on the creating and fostering of Study Groups. They are the source of manifested progressive, intelligent, spiritual living, shared through the minds of humans, siblings who discover the Father's Will in their lives and apply the teachings of the Revelators and Jesus. They are united in **\*The Spiritual Universal Siblinghood of Nebadon\*** if they so choose.

A Nexus is a central, a place where universal communication from On High can be had, relegated, and delegated by and through our human planetary brothers and sisters within **\*The Spiritual Universal Siblinghood of Nebadon\***, communicating through a system of *Vectors*. All information, when filtered through *transparency* at the 3<sup>rd</sup> sector/circle, (which is akin to the Holy Spirit/Conjoint Actor within whom we all have life, are moved, and can be moved), then all the incoming and outgoing information produces the Fruits of the Spirit.

Whether this information is in-coming from the 1<sup>st</sup> or 2<sup>nd</sup> *circle* to the inner 3<sup>rd</sup> *circle* where all is received and transmitted to the membership or in-coming from all around the globe within the *Vectors* in through the outer 3<sup>rd</sup> *circle* and then to the 2<sup>nd</sup> or 1<sup>st</sup> *circle*, all is recorded, filtered, and is redirected in a new light, dispatched and out-going, in all directions, within and without, in continual uninterrupted communication. This is the universal pattern of the Paradise Trinity. This is the *universal way of life* revealed within the 5<sup>th</sup> epochal revelation, which is *its purpose and goal*.

At this time, I see that the mandate before us, is to bring together all Urantian Students in touch with all members of the Urantia family, beginning with *a focus on Study Groups and the using of Vectors* around the Nexus/*\*The Spiritual Universal Siblinghood of Nebadon\** this system of communication. Instead of just being outgoing organizations, with outreach, we will have in/reach as well as outreach. As we must reach within to receive personal help and communication with the Divine, so now we will have the joy and privilege of knowing this will happen on a global planetary level.

The Spiritual Family is the Gospel, Sisters and Brothers, Sons and Daughters of the Living God, *Siblings*, walking as Jesus did, the ideal way of moving into the future.

## **\*The Spiritual Universal Siblinghood of Nebadon\***

(The Nexus) **\*The Spiritual Universal Siblinghood of Nebadon\*** brings the potential for individuals from the three (3) (UF) Urantia Foundation, (UBF) Urantia Book Fellowship, (UAI) Brotherhood Corporation working together in one Universal Supreme Planetary Movement. It will take time for their integration, many adjustments will be made, so we must understand that the action needed now is the sincere effort and will of each individual member from the three, UF, UBF and UAI, for the eventual emergence of the Siblinghood, one living, loving organism, with the individuals from all over the world willing to bring their talents and skills to the Siblinghood Reality. This is a sincere soul offering from on high, to all who desire to do the Father's Will and Show Mercy. There is no judgment or repercussions necessary but a sincere desire for unity in the Light of the Teachings of Jesus. Let's move on and grow as one family.

All positions filled within the *\*The Spiritual Universal Siblinghood of Nebadon\** will be voted on in a general election. The whole known readership will be offered membership and invited to apply for service in the Universal Siblinghood. All existing members of all three (3) organizations UF, UBF, UAI, will have the opportunity to apply for service in any *sector/circle* of their choice. Potential candidates from the whole known readership will be heard and the ones with the right qualifications will be nominated and then voted upon by the *whole membership*.

*No one will be sued if they don't comply. This is not about currency power but the Power of Love of Spirit. These organizations may go on for a time but be assured that they will cease to exist in the not-too-distant future, just as the rebel trio who rejected the Fathers' Will. There is no deadline for making your choices and decisions. No matter what you decide upon individually, you will know the Truth. A time is allowed for all siblings within these organizations, who wish to unite, to come home. We all have the necessary time of communion with our Thought Adjusters, to recognize the Truth in the revelation about how providence works in such matters. The Time has come to awaken to the purpose and plan for this revelation. This is providence in the happening.*

## Majestically Through Space

*The whole marvellous and universal mechanism moves on majestically through space to the music of the meter of the Infinite Thought and the Eternal Purpose of the First Great Source and Center projected by the Second Source and Center and manifested Through the Third Source and Center.*

### Functions of Providence

<sup>118:10.2 (1304.4)</sup> The Father, Son, and Spirit — as the Trinity — are not the Almighty Supreme, but the supremacy of the Almighty can never be manifest without them. The *growth* of the Almighty is centered on the Absolutes of actuality and predicated on the Absolutes of potentiality. But the functions of the Almighty Supreme are related to the functions of the Paradise Trinity.

<sup>118:10.3 (1304.5)</sup> It would appear that, in the Supreme Being, all phases of universe activity are being partially reunited by the personality of this experiential Deity. When, therefore, we desire to view the Trinity as one God, and if we limit this concept to the present known and organized grand universe, we discover that the evolving Supreme Being is the partial portraiture of the Paradise Trinity. And we further find that this Supreme Deity is evolving as the personality synthesis of finite matter, mind, and spirit in the grand universe.

Time-space creatures must have origins, relativities, and destinies in order to grasp universe relationships and to understand the meaning/values of divinity. *Therefore, does Paradise Deity attenuate and otherwise qualify the extra-Paradise personalizations of divinity, thus bringing into existence the Supreme Creators and their associates, who forever carry the light of life farther and farther from its Paradise source until it finds its most distant and beautiful expression in the earth lives of the bestowal Sons on the evolutionary worlds.*

<sup>118:10.4 (1304.6)</sup> The Gods have attributes, but the Trinity has functions, and like the Trinity, **Providence** is a function of the Paradise Trinity, the composite of the *other-than-personal over/control of the universe of universes*, extending from the evolutionary levels of *God the Sevenfold* synthesizing in the power of the Almighty on up through the transcendental realms of the Ultimacy of Deity.

<sup>116:2.4 (1270.1)</sup> And this is the origin of God the Sevenfold, whose successive levels are encountered by mortal humans in the following order:

1. The Creator Sons (and Creative Spirits).
2. The Ancients of Days.
3. The Seven Master Spirits.
4. The Supreme Being.
5. The Conjoint Actor.
6. The Eternal Son.
7. The Universal Father.

<sup>118:10.1 (1304.3)</sup> Providence does not mean that God has decided all things for us and in advance. God loves us too much to do that, for that would be nothing short of cosmic tyranny. Humans don't have relative powers of choice. Neither is the divine love that short-sighted affection which would pamper and spoil the human children.

118:10.5 (1304.7) *God loves each creature as a child, and that love overshadows each creature throughout all time and eternity. Providence functions with regard to the total and deals with the function of any creature as such function is related to the total. Providential intervention with regard to any being is indicative of the importance of the function of that being as concerns the evolutionary growth of some total; such total may be the total race, the total nation, the total planet, or even a higher total. It is the importance of the function of the creature that occasions providential intervention, not the importance of the creature as a person.*

*This clearly demonstrates that the person through which most of the Urantia Papers came through to Urantia, was not important. The importance was the providential function and not the person.*

118:10.6 (1305.1) Nevertheless, the Father as a person may at any time interpose a Fatherly hand in the stream of cosmic events all in accordance with the will of God and in consonance with the wisdom of God and as motivated by the love of God.

118:10.7 (1305.2) *But what humans call providence is all too often the product of their own imagination, the fortuitous juxtaposition of the circumstances of chance. There is, however, a real and emerging providence in the finite realm of universe existence, a true and actualizing correlation of the energies of space, the motions of time, the thoughts of intellect, the ideals of character, the desires of spiritual natures, and the purposive volitional acts of evolving personalities. The circumstances of the material realms find final finite integration in the interlocking presences of the Supreme and the Ultimate.*

118:10.8 (1305.3) *As the mechanisms of the grand universe are perfected to a point of final precision through the over/control of mind, and as creature mind ascends to the perfection of divinity attainment through perfected integration with spirit(fusion), and as the Supreme consequently emerges as an actual unifier of all these universe phenomena, so does providence become increasingly discernible.*

118:10.9 (1305.4) Some of the amazingly fortuitous conditions occasionally prevailing on the evolutionary worlds may be due to the gradually emerging presence of the Supreme, the foretasting of his future universe activities. Most of what mortals would call providential is not; their judgment of such matters is very handicapped by lack of farsighted vision into the true meanings of the circumstances of life. Much of what a mortal would call good luck might really be bad luck; the smile of fortune that bestows unearned leisure and undeserved wealth may be the greatest of human afflictions; the apparent cruelty of a perverse fate that heaps tribulation upon some suffering mortal may, in reality, be the tempering fire that is transmuting the soft iron of immature personality into the tempered steel of real character.

118:10.10 (1305.5) **There is a providence in the evolving universes, and it can be discovered by creatures to just the extent that they have attained capacity to perceive the purpose of the evolving universes. Complete capacity to discern universe purposes equals the evolutionary completion of the creature and may otherwise be expressed as the attainment of the Supreme within the limits of the present state of the incomplete universes.**

118:10.11 (1305.6) The love of the Father operates directly in the heart of the individual, independent of the actions or reactions of all other individuals; the relationship is personal — Human and God. *The impersonal presence of Deity (Almighty Supreme and Paradise Trinity) manifests regard for the whole, not for the part. The providence of the over/control of Supremacy becomes increasingly apparent as the successive parts of the universe progress in the attainment of finite destinies. As the systems, constellations, universes, and super-universes become settled in light and life, the Supreme increasingly emerges as the meaningful correlator of all that is transpiring, while the Ultimate gradually emerges as the transcendental unifier of all things.*

118:10.12 (1306.1) In the beginnings on an evolutionary world the natural occurrences of the material order and the personal desires of human beings often appear to be antagonistic. Much that takes place on an evolving world is rather hard for mortals to understand — natural law is so often apparently cruel, heartless, and indifferent to all that is true, beautiful, and good in human comprehension. But as humanity progresses in planetary development, we observe that this viewpoint is modified by the following factors:

118:10.13 (1306.2) 1. *A human's augmenting vision* — its increased understanding of the world in which one lives, the enlarging capacity for the comprehension of the material facts of time, the meaningful ideas of thought, and the valuable ideals of spiritual insight.

***As long as men measure only by the yardstick of the things of a physical nature, they can never hope to find unity in time and space.***

118:10.14 (1306.3) 2. *A human's increasing control* — the gradual accumulation of the knowledge of the laws of the material world, the purposes of spiritual existence, and the possibilities of the philosophic co-ordination of these two realities. *The human, the savage, was helpless before the onslaughts of natural forces, was slavish before the cruel mastery of its own inner fears. The Semi-civilized human is beginning to unlock the storehouse of the secrets of the natural realms, and its science is slowly but effectively destroying its superstitions while at the same time providing a new and enlarged factual basis for the comprehension of the meanings of philosophy and the values of true spiritual experience. The civilized human will someday achieve relative mastery of the physical forces of its planet; the love of God in its heart will be effectively outpoured as love for its fellow humans, while the values of human existence will be nearing the limits of mortal capacity.*

118:10.15 (1306.4) 3. *A human's universe integration* — the increase of human insight plus the increase of human experiential achievement brings it into closer harmony with the unifying presences of Supremacy — Paradise Trinity and Supreme Being. And this is what establishes the sovereignty of the Supreme on the worlds long settled in light and life. Such advanced planets are indeed poems of harmony, pictures of the beauty of achieved goodness attained through the individual pursuit of cosmic truth. And if such things can happen to a planet, starting by each individual, then even greater things can happen to a system and the larger units of the grand universe as they too achieve a settledness indicating the exhaustion of the potentials for finite growth.

118:10.16 (1306.5) 118:10.17 (1306.6) *The kindom of God is in the hearts of men, and when this kindom becomes actual in the heart of every individual Sibling on a world, then God's rule has become actual on that planet; this is the*

attained sovereignty of the Supreme Being. When the Kindom of God is actual in the heart of the individual, the Supreme Being becomes sovereign in that person's life journey **and that is fact of providence potential and true for each individual who chooses to do the Father's will.**

*For a person of this advanced order, providence has become an actuality, the circumstances of life are correlated, but this is not only because that human has come to dominate the material problems of its world; it is also because one has begun to live according to the trend of the universes; one is following the pathway of Supremacy to the attainment of the Universal Father.*

118:10.18 (1306.7) To realize providence in time, humans must accomplish the task of achieving perfection. But humans, can even now foretaste this providence in its eternity meanings as they ponder the universe fact that all things, be they good or evil, work together for the advancement of God-knowing mortals in their quest for the Father of all.

118:10.19 (1306.8) Providence becomes increasingly discernible as humans reach inward and upward from the material to the spiritual. The attainment of completed spiritual insight enables the ascending personality to detect harmony in what was theretofore chaos. Even morontia mota represents a real advance in this direction.

118:10.20 (1307.1) Providence is in part the over/control of the incomplete Supreme manifested in the incomplete universes, and it must therefore ever be:

118:10.21 (1307.2) 1. *Partial* — due to the incompleteness of the actualization of the Supreme Being, and:  
118:10.22 (1307.3) 2. *Unpredictable* — due to the fluctuations in creature attitude, which ever varies from level to level, thus causing an apparently variable reciprocal response in the Supreme.

118:10.23 (1307.4) When humans pray for providential intervention in the circumstances of life, many times the answer to their prayer is their own changed attitudes toward life. *But providence is not whimsical, neither is it fantastic nor magical. Providence is the slow and sure emergence of the mighty sovereign of the finite universes, whose majestic presence the evolving creatures occasionally detect in their universe progressions. Providence is the sure and certain march of the galaxies of space and the personalities of time toward the goals of eternity, first in the Supreme, then in the Ultimate, and perhaps in the Absolute. And in infinity, we believe there is the same providence, and this is the will, the actions, the purpose of the Paradise Trinity thus motivating the cosmic panorama of universes upon universes.*

Here is Providence in the Happening

## Circle One (1) 1<sup>st</sup> Source and Centre - The Fatherhood

**1<sup>st</sup> Sector of Operation**- Some of the work needed in this *sector* is similar to the work being done by Urantian Students of the Urantia Foundation. The work will be operated in three (3) *sectors of operation* and all the Team Members and Trustees in a new way, will come together and apply the Siblinghood Pattern in the Family of God as intended by the Paradise Trinity, gathering God's Children, members, siblings, brothers, and sisters, through and within the 2<sup>nd</sup> and 3<sup>rd</sup> Sector/Circles.

The content may not necessarily be about what he did as much as how he lived his life and how he was within himself when he went about The Fathers' business and said things that revealed Him to us, humans.

This *Team* will also be responsible for the recruiting and training of philosophy teachers within the membership. The emphasis will be in the understanding of the importance and the power of philosophy to unite Science and Religion in ones' life, for the attainment of a balanced personality, causing the transformation of the social life on Urantia. ## Circle Three (3) 3<sup>rd</sup> Source and Centre - The Motherhood

**3<sup>rd</sup> Sector of Operation** – This *Sector of Operation* will focus on verifying all incoming and outgoing information to and from the MemberShip at large, the checks and balances *Sector*, where all incoming and outgoing requests are received sorted and re-directed to their rightful *Sector and Unit*, where a *Team* member will be taking care of the specifics and re-directed back to the 3<sup>rd</sup> **Sector Unit**, where a *Team* member will review and verify that it has properly been answered and return it to the sender.

Organizations will not be members and no member will have special status. A position is a function of free will service to humanity and beyond and is sacred in itself. The function is the importance, the Father is no respecter of persons, but His functions are Law.

**This Team** will also be responsible for; the list of the elected members and a separate list of non-elected working members, active within the *Teams* in all three (3) Sectors of Operation. Fruits of the Revelation/Spirit will be available to all who wish to feast upon uncertainty and taste of the many new energies coming to fruition.

In this way, information will travel from any individual member on the planet through the Motherhood sector, to the Siblinghood or to the Fatherhood sectors, adjusted, transformed, and redirected to the individual members request.

***Within \*The Spiritual Universal Siblinghood of Nebadon\*, any election can be contested by any member within the Whole MemberShip at the time of nomination of an individual, not after the election.***

The Philosophy of *\*The Spiritual Universal Siblinghood of Nebadon\** is to relate to individuals and not to organizations. It is a free individualized organism that is subject to God and God only but will adjust to and respect the mores of the times.

*\*The Spiritual Universal Siblinghood of Nebadon\* is the revealing of and the emergence of the Supreme Treasures of Nebadon, which are given to humanity by our Supreme Sovereign Michael of Nebadon, Jesus of Urantia, through our Holy Spirit as contained within 5<sup>th</sup> Epochal Revelation.*

A *Team*, a temporary group of *siblings* who are now actively working in different ways at being about the Fathers business are needed to come together in Counsel, to elect a provisional working group that will initiate the nomination and election process for the needed positions within *\*The Spiritual Universal Siblinghood of Nebadon\**.

Study Group Representatives or any individual *Student of the 5<sup>th</sup> Epochal Revelation (Through The Vectors)*, will entrain ideals of brotherhood & sisterhood to the *\*The Spiritual Universal Siblinghood of Nebadon\**. This *Central Nexus* with and through the individuals working at the helm, *at the 3<sup>rd</sup> Sector of Operation*, The Motherhood, will be the receiving sector/circle to which all siblings around the globe and beyond will send projects and ideal goals to be developed within the Mothers' womb, our Holy Spirit who will produce the desired outcome, giving birth to a new and universal reality by and through the *Study Group Units* across the globe. Information will be shared back and forth, incoming, and outgoing through the vectors, communicating freely all the spiritual planetary happenings on a global universal scale with the cosmic citizens of Nebadon.

As we know, in the Fathers ascension plan, before moving on up, we must 1<sup>st</sup> recognize the Personality of the Holy Spirit our local universe *Mother, the 3<sup>rd</sup> Source and Centre, The Motherhood*.

*The Function of the Universal Siblinghood works like this; there are three Circles of Operation. When a request from any member of the Siblinghood is put forth from one of the planetary Vectors (by individuals within study groups or any individual working within one of the circles), it will be reviewed by one of the appointed Team members on the Receiving Third (3) Circle of Operation. That is where all incoming and outgoing information will be reviewed and redirected to the appropriate representative of the 1<sup>st</sup> or 2<sup>nd</sup> or 3<sup>rd</sup> Circle, to the Team responsible for a particular request. If the request concerns the membership as a whole,*

it will need to be voted upon by the whole membership before a decision is made. Once a decision is made, the result will be redirected to one of the third (3) Circle/Sector of Operations' Team representatives and sent to the originator of the request. If the result is unsatisfactory and more must be considered, then the same process is reactivated and resent to the receiving third (3) Circle/Sector of Operation Team and reviewed with the new information and the same process is repeated at the 1<sup>st</sup> or 2<sup>nd</sup> Circle. Once the appropriate choice is decided upon, siblings working within the 3<sup>rd</sup> Circle/Sector of Operation of the Nexus, will reveal the final choice and send the new information through the Vectors back to the membership website where all can review.

The 1<sup>st</sup> Source and Center of the Siblinghood, The Universal Father will be the circle wherein the Foundation is revived in a new light to continue the work that was intended to be.

The 2<sup>nd</sup> Source and Center, The Siblinghood will be reminiscent of the brotherhood corporation tentative, but working within *\*The Spiritual Universal Siblinghood of Nebadon\**.

All information about decisions made within meetings, in counsel, will be sent to the siblings working within the Membership Unit *Team* of the 3<sup>rd</sup> Source and Center, who in turn will send the information back to the membership through the website, dispatched as a transformed *Message*, new information through a *Vector* from the *Nexus* and revealed to all Siblings of the planet who wish to participate in Michaels plan. *Vectors* can be understood as avenues of communication where information is shared with all, to and from the *Nexus*, where other siblings review, counsel, and formulate their request to the membership ready for approval by a universal vote.

All are invited to bring their talents and skills to *\*The Spiritual Universal Siblinghood of Nebadon\**. Together as One in the Holy Spirit Mother Supreme with the Supreme Sovereign Creator Son of Nebadon and the Universal Father, we will slowly learn how to bring about the sincere desires of our hearts without going to the laws of humans for counsel. Applications for working positions in the different *Sectors* will depend on the individual skills and talents. To make this a reality will require the recruiting of philosophers, webmasters, scientists, ministers, schoolteachers, doctors, nurses, social service workers, horticulturists, media executives, artists, school administrators, hospitality workers, information specialists, businessmen, and philanthropists.

For this to happen. 1<sup>st</sup> - We must each go within our temple, in the heart of our sanctuary and abandon the old way of thinking, and come into the kinship at hand, the kingdom of God, free of prejudice, and fear not, as Jesus taught and still teaches. Once that is accomplished, we begin with putting in place the structure of *\*The Spiritual Universal Siblinghood of Nebadon\**.

1-Create a website under the name *\*The Spiritual Universal Siblinghood of Nebadon\** with the circles to reflect this Trinity concept, without worries of being prosecuted or sued.

2-Gather individuals who are the most likely to have information on Study Groups, contacts, addresses, mail, or email, from all three organizations, and all other websites pertaining to the revelation. All are welcome to bring Light & Life to this Nexus, unifying the readership, students of the 5<sup>th</sup> Epochal revelation, individuals from (UF, UBF, UAI, CT, TM, MM and more). We must pool together all information freely given, and once in place and at the ready, send the good news of a True Spiritual Unity of planetary cosmic proportions.

3-We will have online counsel, where all can tune in as a planet out of isolation through planetary broadcasts, as it is on high and will be in light & Life, the Most Highs are with us. A place where anyone person can receive a continual update of what is happening with those who have received the revelation

and are in service to Christ Michaels' Loving Ministry. We must include all individuals from all Study Groups who understood the purpose of the Urantia Papers and adhere to the 5<sup>th</sup> Epochal Revelation teachings. All seekers will have the opportunity to stay tuned to the planetary broadcasts with reps from Study Groups in meetings from all over the planet. A place where one can feel the pulse of Urantia and follow its heartbeat.

Here, I am relating all that I have been inspired to share. I know that our unseen friends are all here on Urantia applauding us, waiting to assist us in our efforts to lead men and women of spiritual insight, students, and members of the Urantian organizations to come together as the Contact Commission was promised.

I know that I am being asked to reveal this by Michael and the Revelatory Commission which was then acting under the sole supervision of our superior and experienced Melchizedek Revelatory Director and with the approval of the Midwayers who have the veto power to remove and to restore the status of mortals when it is the Fathers' Will.

*(I know whereof I speak, having had people who had judicial authority on my life at one time, be moved from their public domain positions because my request (My Fathers Will) was not being supported by those dressed in brief authority. Immediately, they were replaced by someone else, who also dressed in brief authority, helped to bring the Fathers Will to fruition in my life and this occurred more than once in my life. It didn't happen for me but for the function I have as His Son.*

Please understand and recognize that The Most Highs rule in the human kingdoms and will remove individuals working in the public interest who operate in ego, especially positions of members in all Urantia movements who refuse to unite and put their efforts to the established mandated spiritual goals.

We need all our leaders to awaken and have the Universal Father centered in their personal lives. The Urantia revelation was intended to give us the suitable information with guidelines and mandates as to its purpose and goals to achieve, so that there would be millions of adherents committed to the teachings of the Urantia revelation and the true teachings of Jesus when humankind reaches its spiritual, religious, philosophical, and cosmological peak, (Coming Soon). They need to be established; we need to be prepared.

As spiritual uplifters, the United Midwayers of Urantia, through the selection of twelve revelatory midwayers operating under the supervision of the Melchizedek Revelatory Director, along with a host of revelatory authors, some hailing from as far away as Paradise, the superuniverse capital, and local universe capital, prepared and offered us the Fifth Epochal Revelation in the form of a compilation called The Urantia Papers. Why was it published as the Urantia Book with false images of a male figure (on some printings) to supposedly represent Jesus? The book should be printed and titled as The Urantia Papers in the future, without false images of our Creator.

Knowing that the United Midwayers of Urantia through their veto power are causing existing organizations to cease and desist as the human liaisons and leadership of The Urantia Papers in the present format, they come with a new and Universal Design.

Jesus taught us not to take away, but make sure you have something to enhance and embellish what has been attempted, and by its Fruits, all will come to see the Value/Unity. These organizations of human liaisons and leadership of The Urantia Papers have the right to continue assisting in the celestial plan for the advancement of Urantias' spiritual growth within the *\*The Spiritual Universal Siblinghood of Nebadon\** if they so choose.

The instructions and mandates accompanying The Urantia Papers were intended to create and foster thousands upon thousands of study groups, serving millions of dedicated and devoted teachers and leaders, who would establish religious, philosophical, and cosmological institutions to feed the hungry minds and souls of spiritually deprived men and women craving for spiritual, philosophic, and cosmologic sustenance.

When the chaos of the present confusion has passed, the formulation of a Supreme Cosmic Organism such as *\*The Spiritual Universal Siblinghood of Nebadon\** comes at a time needed for new and improved human/celestial relationships.

Teachers and leaders must be trained to foster millions of study groups in many languages, through many translations, and eventually understanding the concept of one religion within, a philosophy, and a cosmology that reflects our intellectual and cultural development.

Trying to compromise the revelation by bringing other religious movements into the fold by saying that it is interfaith, is futile and incorrect. If one wishes to relate with siblings in other beliefs, it should be stipulated as inter-beliefs. Beliefs are human and *Faith* is a personal God-given Truth Presence, a knowing of His presence within. A believer can bring doubt, but Faith is beyond doubt. When one wishes to share ones discovery of new truth, it becomes another belief (your belief) to the other believer, and something to contest with, which causes two negatives pushing against each other. We must be open to listen to another belief without having to contest it with ours, and by doing this we become an open circuit with the Adjutant of Counsel, a positive connection for the Spirit of Truth and all our unseen spirit helper siblings from within to be able to give them the right portion of light they need to grow their soul. We must be attractive like a magnet that pulls them from within. Once you have listened well and understand the belief system of the other you will know what and how much to share.

*\*The Spiritual Universal Siblinghood of Nebadon\** will provide an unexpected reasonable solution for our planetary movement, which will stimulate constructive thinking about our future.

The Revelators would love to see individuals of these three organizations come together in *\*The Spiritual Universal Siblinghood of Nebadon\**, all on the same page and arrive at the same understanding where Christ Michael and our Holy Mother will be thrilled.

This will be transitioned progressively, like all spiritual endeavors. Once the pattern is understood and the structure is in place, then and only then will the intent and desire of the individuals within UF, UBF and UAI become a reality, one universal working movement under the umbrella of our Holy Spirit Mother of Nebadon, as Universal Siblings in the Father's Love, guided by the Infinite Supreme Intelligence of Paradise.

We are at the cusp, on the brink, of a new eventuation, at the Dawn of the Morning, where the subtle light of the Brilliant Morning Star appears on the Horizon, Chief Executive of Nebadon, Perfect Administration of Light in our Universe, with our Supreme Sovereign, Creator Son Michaels' Will, manifested through our Co-Creator, local Supreme Universe Mother, Holy Spirit of Nebadon on Urantia...

# FORE GIVENESS

## *The Adjusting Time*

To any universally conscious being, a Magisterial Son of God is a fact, has always been and always will be. Their supreme manifestation is only relevant to the moment of its' needed Reality for a Time, meaning that they consciously accept to do the Father's will for a Supreme Time Span on any given universe/planet and in this case Urth.

His name in this case (Which is the case concerning the Ancients of Days adjudication of the three Caligastia, Satan & Lucifer) can be what you want it to be. He has already been given many names by different people, urantians who believe that he is here now in the inaugural adjustments for His eventual stepping down on Urth to Manifest Our Father's Plan on the material plane.

To help in the Preparation for the world's changes caused by the Arrival of this Magisterial God Son of Foregiveness, whether it be now or hundreds of years from now, it doesn't really matter anyway. We are to remain Alert! And in Personality perception be present at the quick and quantum of the shifting in many a consciousness.

Prepare the way! Prepare the way for all children to come to know me. Their hearts are so heavy with pain and suffering. It is not the way of my Spirit. It is not the way. Show them the ease and lightness of being with us. Help them understand that we are here to lighten their burden, to give them joy, to give them peace, to give them humor and a sense of playfulness. For truly the universe is built in joy, is built in light. There is nothing to be ashamed of or fearful of as you grow in the comprehension of this.

But the human heart bears a terrible burden, and it is a burden that most people are indeed afraid of and shy heavily away from, and they repress their pain. Accept it. Learn to appreciate the fact that this world is a world of experimentation, and the experimentation has not been done with a sense of vindictiveness, but as a sense of coming into a fuller expansion of the Father's Personality who lives within you to the glory of all that is and all that ever will be. The human heart has weighed a heavy burden upon itself, and this has not been done with a sense of irony or with a sense of rashness. Carefully, carefully have the scenes been played out so that each person will come into a greater appreciation and knowledge of the events of the rebellion and what has transpired on Urth. The children here will be able to make sense of this.

We are the harbingers of Light and Truth, and now we must be ever bolder in our proclamations of Goodness and the Truth that are a legacy of this planet.

There is a great repudiation of evil that must come now. And in this repudiation, must come a sense of acceptance, accepting that the transgression of the divine will creates havoc and chaos in the minds of recipients of the distortion of the Father's mandate. This may somewhat be a difficult mental posture for you to hold. And it is not to say that you are indeed condoning evil. But accepting the fact that this world has been fraught with rebellion underscores a Beauty and depth of the Divine Plan. Now you are being asked to foregive. Foregive, and accept what has happened here as part of the necessary growth of the Supreme Being in the universe and in the grand scheme of the Father's plan.

So, my message for you my siblings, is to love what has happened here, to love the chaos, to love the changes, to give the evil its due by standing in front of it and shining the face of Eternal Mercy and Infinite Love upon it. For that is the only way in which to render it powerless. That is the only way in which to redeem it, and for it to begin to change and to vibrate at the higher levels of light and love, mercy and understanding. So, take into each of you this Spirit of Forgiveness, the Spirit that our brother, the Magisterial Son brings into the sphere of Nebadon where our mind is able to receive the Mercy of the Eternal Son into our being. I ask for you to open yourselves up so this endowment of forgiveness, this eternal wellspring of divine understanding and mercy is able to adjust with your human energy systems and bring new peace, new hope, new truth, new levels of cosmic consciousness into all brothers and sisters. Indeed, this is an endowment that Christ Michael continually instills within us. We should be aware of this more than ever now, we are never to be away from this, as the Adjusting Time continues with more vigor and vitality.

Open your hearts now, fully open them as wide as you can in your intention, and allow our brother, the Magisterial Son's Spirit to come upon each of us and recognize and feel the pure Love of the Father and the Eternal Mercy of the Son within The Holy Spirit of Nebadon in our minds.

The peace of our creator will not be achieved by talks, sophistries, ideologies, or wars of men, to coerce and dictate individuals into systematic beliefs. The peace of our creator will be achieved with Goodness, with Spiritual Siblinghood understanding and cooperation, for to respect the harmonization of the various diversities of the planet into one unified whole. Forgiveness is our endowment to build into another person's heart the desire to forgive, the need to forgive, the willingness to forgive. Divine Love in Action.

## **COSMIC CITIZENSHIP, LOVE AND COMPASSION**

As current residents of Urth, we are aware and concerned about some developments in the world that aid or hinder planetary progress. But, in the mind arena, we are also developing an awareness of our ability to contribute and impact the developmental swing of our universe as in the power of unconditional love.

As we know, energy remains static until polarity is established, and through differential, there comes into being force and power, movement and transference of energy, and the result is work, action and effect. Divine Love is thus like energy; it is everywhere present. It requires differential for there to be application.

Each one of us is capable of developing the ability to receive unconditional love and to give this love by transforming it from a general, static state of reality into a point of application. This mechanism whereby this love becomes manifest is contained in our word "compassion". When the Human-Will chooses to express this love to an individual, it transforms itself into compassion. It may be described as a body of water. When we choose to give some, we dip our bucket into the body of water and pour out that love. The pouring is compassion; it is applying direction and motion to this love.

We are aware of the electrical charges of our atmosphere in times of storm. When an energy line is established, we witness lightning. The Divine Love of God is revealed through each of us, for in our effort to connect with God we become an energy line just like lightning, bringing love into manifestation,

witness able as life, just as lightning is a manifestation of the energy in the atmosphere. Going a step further, we become that love and live as love, Divine Love.

Since there must be differential in order to promulgate love, herein enters the value of Stillness, for we create the condition of the worshipper and the worshipped and thereby the energy of love influxes. Subsequent to this filling of divine force, we are charged and are ready to discharge into the mind and heart of one of greater depletion, of stronger need. This dynamic is compassion; it is kindness; it is mercy; it is our fingerprint upon the Divine Love of God, and it is The Will of the One Universal Creator (that Jesus called Father) that we so imprint that omnipresent love and define it as to make it applicable to our Siblings, to make it witness-able, to make it contactable to the doubting heart and mind. We must always be opened by reminding ourselves of our *universal cosmic citizenship*. While we are resident on this planet and conscious of our citizenship in the universe, we likewise establish the same differential that allows for the purpose of Christ Michael to become manifest on our planet. We are contact points, the electrode where His mission may impact and charge this planet. While the creator is all-powerful, it is not the purpose of Divine Will to impose upon any creature the way of Paradise, the ideal life. The emergence of such attainments (*The Spiritual Universal Siblinghood of Nebadon*) is out of and distributed through each human being, angel and all ministering spirit personalities doing the Will of God. While it is a wish that the hand of God would simply correct all that, is of error for us. The means whereby God will infuse Goodness is done through its rising within us and our expression as Universal Siblings, Sons, and Daughters of the One Universal Creator.

Open up to be instilled with a higher vibrational pattern of forgiveness so that your minds can endow this into another person, be contagious, spread the benign virus of love. When you are before a person who seems to be spiritually receptive, call upon our Holy Spirit, Daughter of the Infinite Spirit, our Supreme Mother, to manifest in that heart, the desire of its Soul.

This in itself, enhances the power of the Thought Adjuster, to bring to life His Perfect Plan for that unique individual, which reveals the Supreme Truth, Beauty, and Goodness of the Infinite Spirit the 3<sup>rd</sup> Source and Center to that Personality. When Nicodemus asked Jesus what He meant by being born again as he was inquiring about having to go back into his mothers' womb? Well (not literally) that is exactly what He meant! We are infinitely manifested within the Infinite Mother Mind of the Infinite Spirit, and we are born again and again every instant of Time and Beyond.

So even if Michael hasn't come back yet and our Magisterial Son hasn't appeared yet either, we know that they are, in Mind, constantly helping our Holy Mother Spirit to awaken Her offspring to their Guides' (Spirits') ascension plan. Receive the Spirit of Truth as Jesus knocks on the door of your heart and be born again and ask for their Peace and Forgiveness to be seeded into your heart and through the heart connection to that other person's being. You will know what needs to be done, and you will be doing your brothers and sisters a valuable service for they will not know what to ask for, they will not know what their soul needs. You can inlay and overlay spiritual energy upon them that their indwelling Spirit Fragments can use to the advancement and growth of that individual's Soul if they so choose.

I encourage you now to think more mindfully of what it is that you are participating in when you engage with your siblings, and to think less of what you can share with them verbally and more of what you can share with them spiritually from within. To be mindful is to be attentive, living in the present moment consciously aware of the past values and future endeavours. To be mindful is to give up wearing the energy-draining habit of worry caused by fear. To be mindful is to be conscious of the presence of God

within and all around, to welcome Her Spirit and Bestowal Son as our intimate companions. To be mindful is to let all stress drain from our mind and body, to relax in the certain loving presence of all the spiritual agencies of Love that literally flood the universe of universes. To be mindful is to listen with the ears of love to the words of our siblings. To be mindful is to be fully awake (aware), not semi-conscious. To be mindful is to love our Siblings as Sons and Daughters of The One. To be mindful is to obey the impulses of co-creatorship which come to us from the emanations of the Great Supreme. To be mindful is to let go of the clambering of the ego, the need to control, and let Our Maker take charge.

“How does one become more mindful”, one may ask? The answer is surprisingly simple. It’s a matter of choice. This business of God-consciousness, this business of mindfulness (for the two are very closely interrelated) is under our control, it is our choice. This choice consists of countless choices so that when we look at it closely, we are talking about virtually minute-by-minute awareness of being about the Creator’s business.

This is not a struggle. It is not something difficult and exhausting like introversion or introspection as one may think. It is the application of the fundamental free will choice which we can make to do the will of God. It is to place our burden at our feet, rather than carry it on our back, and walk away from it as God admonished us. We must spread our wings like Jonathan Livingston Seagull and catch the currents of Divine Love that travel through the universe, that energy under our Soul’s wings, ever lifting us higher in the Father’s many realms of Personality ascension.

Siblings on Urantia have literally starved for spirit, and their hunger is now stirring within them. Feed them, and feed them well, feed them abundantly. Feed their hope. Fuel their desire for this love, and you will give them more than their hearts can even contain. Be patient and allow the necessary time that their minds and bodies need to ingest this food for the soul. While you are standing in front of them take a few moments and ask for Michael’s peace to come through you so He can instill within them the Mercy that He brings to His Co-Creation and can be imprinted upon their souls. Know that in time the richness of what we share with them all becomes a reality. They will be appreciative at some level for what you have given them.

As you listen to the Spirit of Truth in Soul, The Seed/Word of God is revealed in your Mind by the actions of the Adjutant Mind Spirits, the 1<sup>st</sup> introduction to Her Supreme Mind. The Supreme Seeds of Truth that are planted in you as of now, will grow. Spend time with your Thought Adjuster and ask for his presence within you to swell to heights that are unimaginable to you.

Walk-in-Forgiveness, personify forgiveness, share forgiveness freely with others. This is what is necessary now at this time of correction. There is so much turmoil and chaos, and most people are stirred up within themselves and know not where to turn. There is much anger and resentment, recrimination, and animosity; people point fingers at one another and try to assess blame. By your efforts, you can wipe the slate clean by building forgiveness in each person that comes before you. Christ and the Magisterial Son are here with us in mind to solidify that foundation in each individual and to encourage us to open even wider to what is coming into this planet and receive it here now, in The Peace of Jesus. May this be woven within you, for you are the glorious sons of the magnificent First Source and Center, and you are an integral part of The Supreme Being. Feel that part of the glory fabric that we are made of, for we are indeed Glorious Souls of Forgiveness.

*Righteousness strikes the harmony chords of truth, and the melody vibrates throughout the cosmos, even to the recognition of the Infinite (48:7.12).*

## The Art of Listening

Listening is a most difficult skill or art to master, especially inward listening to Spirit, because usually listening is done superficially. Most people listen, but the words seem to go in one ear and out the other, because of the habit of un-focused listening. Listening is a skill-full art that can be cultivated and refined by one who truly attempts to listen. It has everything to do with focusing and the level of intent.

Outward listening is often shallow and meaningless; the reason for this can also be a sort of protection because of the cacophony of too many empty words on this planet, which are often carelessly and thoughtlessly spoken and as a result, the hearer develops a *deaf ear*, which can be a subconscious protection from too much noise.

All too often, when someone speaks, the other is already busy formulating an answer in his or her mind because of wanting to respond before the speaker is finished. Therefore, the speaker gets interrupted by the impatience of the one, who can't wait to have a say. Also, at times there is a fine line as some speakers repeat themselves and don't know how to end a conversation.

The listening we need to pay attention to is the inner listening which is even more difficult as this art discerns the true motive and content behind the spoken word, and it's learning to read between the lines, so to speak, and to feel with the heart, not with emotion but with spirit, those words which are not being spoken. In this manner, discernment can take place as to what lives in the other person's heart with which one has the conversation.

Listening is an artistic skill that can be refined when more wisdom and discernment is being mastered. The ultimate listening skill you can develop is by paying full attention to the meanings of the word. It's so easy to interfere, with our own thoughts, prejudices, pre-opinions, and belief systems, especially when we sincerely doubt, whether it is the Spirit who speaks or if they are the ruminations of our own mind. In times to come all will know who it is that speaks from within, this subtle, silent voice.

We can gauge this when we have been uplifted while being in the presence of our Thought Adjuster, whom we call our Beloved. We feel *Loved* and can feel our own love towards others increasing. We then feel more secure in ourselves and have a balanced Personality with a calmer demeanor.

If you recognize this in the affirmative, you will then know that you are on the 'right track,' and if others chide you and say that it is not possible to hear the Small Still Silent Voice within, it is because they have not recognized It within themselves yet or have not yet developed that required depth of listening, so its subtleness doesn't resonate within them and therefore they presume to pass judgment because of this lack of recognition in their own hearts.

## **For All Group Meetings**

### ***Pattern of Interaction***

When discussing an issue, a topic, an ideal, or making decisions, is, to begin by having a silent moment wherein each person touches in with their initial feelings about the subject at hand before going into cross dialogue and random sharing. So, a moment of silence on the subject at hand is suggested prior to all verbal expressions.

For Cosmic Unity to be realized in a group, each personality must have the opportunity for total expression. When a working group approaches a task, the natural outflow is for each member of the working group to bring themselves to the table, from which the greater dialogue can occur, once it is known that all personalities are present and engaged. It allows all views to be experienced prior to the momentum building in some direction, and it honours and allows the expression of every personality present equally. This model of communication always brings about the essence of each perception. In all discussions, be mindful that no one is interrupted, no crosstalk until all individuals have finished expressing themselves. The emphasis is on hearing and especially listening. Once that part of the exercise is complete, then a discussion can occur that builds upon what has previously been shared at the table.

At first when starting a meeting, a really easy technique for facilitators to use, is an object of some sort, either a talking feather, a stone or whatever object is decided upon. In order to speak, one must have it in hand. Even after all have expressed themselves once, the talking object can continue (if needed) to be used throughout the meeting and in this way, no one is ever interrupted as they speak.

You will find as you practice your dialoguing and interaction techniques that the dialogue can become very much like a piece of music, and the speakers are much like musicians, tuned in to one another, alert, sending body signals, sending eye signals, and if everyone is desiring to be connected to the Great Conductor, then each will take turns in the way that brings forth the fullest disclosure of the topic at hand.

Share if you want to; listen to others, and dialogue after everybody has had a chance to express their contribution. I would emphasize here, that while it is “share if you want to,” the premise is that everyone has something important to contribute. And, so, if the timing is right, it is not only a privilege but a responsibility, a duty, to share that perspective.

When you are creating something with other people, for example, a piece of music, the art of it is to know when to play your instrument and when to rest your instrument and allow all to play a solo if they wish. Sometimes you may have a great idea for what needs to be shared, but it isn't the right time. In a serious communication with people working in a group atmosphere, the art is in knowing when to share something and when to maybe wait and hold so that the timing is right. The image of knowing when to play and when to rest your instrument is an excellent guide.

## Study Group Meeting Values

As we make our way toward completion of Personality Fusion, our grand dreams do not require boundaries, positions, or obstacles, for in the flow of things, in conjunction with God's Plan, with Father as the source and Mother as the Action and us as *directors*, we lift our awareness and become our integrated higher self in conjunction with the harmony of all, and so can co-create anything we desire. In making these grand creations of love and service, do not forget the day-to-day service to our brothers and sisters as you pass by. Looking at our day-to-day lives, we see how busy we are; we see how we multi-task and how we contact people and talk to people, for we are The Spirit's voice. We are the God's Love, we are helping our brothers and sisters to come alive, to realize their own greatness, to empower them and bring them out of the deep sleep they have been in for such a long time. It's a step-by-step process, and as we go through the step-by-step processes, we are learning the idea of community, the community of love that we are so successfully involved in within our growth and our extended group, trust the process.

We simply offer to align with the will of the God. Our willingness to be led and our commitment to follow where we are led, these, are the ingredients the universe seeks of us; that is all we must give in this equation. Never hesitate to make your desires known, your wishes stated to the universe, but always allow that your contributions that you make may be altered and redirected towards that which is most in alignment with what we really need, what our interests really are, and what the desires of our hearts would bring us in the process. In this way, our jobs are quite simple, to keep offering our intention, our commitment to being available for Service where we are called.

As we awaken to the awesome 5th Epochal Revelation, and as we progress in our intellectual expansion of mind in search of Spirit, we come to a point where we are compelled to share this revelation with our siblings. We search for other students of the Revelation, kindred Souls searching for Spirit. So, we form study groups and discover more in-depth what these teachings are about until we are at the crossroads of the heart and feel we must bring these teachings into the mainstream and declare to the rest of the world that we have found something they need. As most of us were introduced to the revelation in so many ways, it is not possible to find a way to do this with everyone all in the same way. As we now know of our uniqueness and that our relationships are also unique it is best to leave it up to the Spirit in each to guide us to the Teachings, because how do we know who is ready, or who is capable of reading this profound Truth that in time will shake the very foundations of humanity as we know it.

What we need, is to take in and digest the Revelation and then bring these teachings in our everyday life (Living Truth) as we share with others, students of the revelation or any Truth Seekers. We need to draw near our siblings and produce the Fruits of the Spirit for our siblings. The intellect is a tool to understand the workings of the Spirit reaching out to us and us reaching in to God. The heart is where the Spirit dwells and not the brain, it's alright to play in the mind arena and have intellectual games but that's all academic, it is the Spirit that needs to come through. So, for that to happen it is necessary to bring the Teachings in the heart and reach in to the Spirit. You may search and find many intellectual ways to explain and talk about God but without the actual testing of the terrain in the real world, the living of it, to sort of bounce it off others without the intellectual explanations, but by practicing the 3 L's, of Life, *Live, Love and Learn in Service.*

When the time comes where many of us feel segregated and even have difficulty in communicating with individuals who haven't yet encountered the 5<sup>th</sup> Epochal Revelation, but then realize that we don't know how to, without being rejected and maybe even scaring them away. This is bound to happen because the ego is usually on a defensive mode and is protecting its fortress ferociously (either way), not by knowledge but by fear of knowledge. And so, once you have felt the awesome Love of God and you get the urge to go out and save the world, take a deep breath, and practice communion with your Thought Adjuster and ask how this should be done, because saving the world is not what the revelation teaches us. We are given this revelation to prepare the way for the coming of our Creator Son Michael. There will be other Sons of God that will come such as a Magisterial Son to help prepare for this grand appearance on our little planet. The time and day of His coming only the God knows, but in the meantime, we need to put in practice the teachings of the 5th Epochal Revelation.

After many years of God searching and guided to the Revelation many years ago, while sharing with students in multiple study groups, some of us have come to an understanding that for us to produce Fruits of the Spirit in our daily lives we had to become creative and find a way to get close to unaware individuals without UB stumping blindly.

Regular meetings can be a weekly or bi-weekly gathering of people from all walks of life, culture, or religion. At meetings, we must feel free to express our beliefs without imposing them on others. We all have different personal perceptions that should be shared and respected by all. It is in Faith that we are united not belief.

Any kind of topic or subject can be brought to light if it is to help expand our cosmic consciousness and help in the ongoing soul growth of each one of the participants and the planet.

As an experience, a suggestion for existing Study Groups (long time students especially) would be to start by alternating a weekly meeting of doing a reading with discussion on a specific paper and alternating with a meeting on a specific subject within the teachings every 2nd week, using the same Pattern of Interaction suggested earlier. At the end of each Council Meeting, always reveal the subject for the next meeting so that all can have it in mind for following council.

## Soul Food

All *nations' citizens* who believe in Truth, Beauty, and Goodness, will survive the coming upheavals. Therefore, it is not the right time to be complacent and sit in a corner somewhere and think that someone else will step up to the plate. There is work ahead for everyone, so give some thought on why you are alive on this planet at this particular time.

At birth, we mortals were all gifted with our divine blueprint. If we allow ourselves the time for contemplation and commune with our Thought Adjuster within, we appreciate this gift. Make friends with this Spirit as it is given to us for all time if we accept it. If we do not accept it, it will be given to another mortal on another planet, who will be more than grateful to receive that gracious Gift from the Creator to accompany us on the ascension journey to Paradise.

This chance is given to all of us with the capacity to think, accept it gratefully. Eventually we discover what a *special companion* each have been given; one who might have had numerous in-dwellings on other planets but whose hosts declined the Gift. So now, all their previous experiences will be added to ours, unless one declines, either through doubt, unbelief, or laziness. There needs to be some effort made on the part of each mortal to appreciate this priceless Gift within. The more one gets to know this Gift the greater the appreciation.

Think about it in this way: we only live our mortal life once, never mind the well-known fallacy of reincarnation. Think of what good fortune we have been handed by the Creator to make the most of this foundational life on which our ascension journey is built. Endeavor to live this life with a minimum number of regrets. There will be all the time needed in the hereafter for some remedial work to be done on Perfection Way. "This is the Way".

Let's give some thought to how marvelous the Universal Creator is, to not only give us life but also to bestow a *forever companion* to travel with each one, on the sure path to Paradise. There is so much more that can be divulged, however, there need to be *willing ears to listen*. Each human has their journey to fulfill and is therefore responsible as to how their individual road will be travelled. The Creator loves creativity, therefore, there are no duplicates ever in all of creation, neither will there be on any of the eventually well-nigh innumerable inhabited planets of space and time.

The fact that the ministry of *the Spirit of Truth is a Personal Ministry*, should hit home with each of us **Personally**. It makes us realize that none among us is ever considered being generic by our Divine Parents. Each individual human, male or female is not meant to receive a *one size fits all*, type of spiritual education, that would fail to meet all our individual needs for knowledge and enlightenment.

We may acquire our *elementary* education by being dispensed the basic knowledge that pertains to the spiritual skeleton of our being as in the 5<sup>th</sup> Epochal Revelation. All of us have been created equal in that sense. Yet, once a solid frame of reference has been put into place, our *Personal* development takes priority, based on our Unique Personality and individual spiritual needs as we develop and grow our Soul.

Our Indwelling Divine Fragment is constantly monitoring our thought processes and, whenever we establish an adequate receptivity to Its leadings, It trades Its Observer Position for the more active one

of *Private Tutor* and thus provides us with many valuable insights and precious spiritual Guidance. In Its loving ministry, It fully collaborates with the very personal ministries of both, the Spirit of Truth, and our Mother—the Holy Spirit who all relate to their offspring in unique and personal ways. The Mother Spirit relates to all siblings, man, or woman, in a unique and personal way and presents each newborn child to Her Co-Creator Son as they are born of Her Womb. They raise their children to come to know The Father and together feed them the milk and the solid foods on their Ascension Journey to Paradise.

We may be exposed to some textbooks—the revelations of the written word—just as a teacher will assign some specific academic materials as teaching and visual aids. Yet, as we well know, Truth is not static and becomes very quickly stale when imprisoned between the cover of a book. This is the reason why teaching books have to be frequently revised and updated based on new discoveries. Would one rather have as a health practitioner an old-school doctor who has trained decades ago and considers that his or her education was completed then? Or would you search for a practitioner who keeps up with new medical developments and keeps improving one's skills? The answer is a no-brainer.

Indeed, textbooks can be great catalysts for enhanced thinking as they introduce to our mind some thought patterns we may not have been exposed to so far and that are needed to stimulate our grey matter and contribute to our ever-expanding awareness of the overall reality we live in—beyond the brain, the mere physical realm.

We also have Divine Sons, incarnated Truth Revealing Agents we benefit from, who are visible representatives of the Father in the flesh—Glorified Teachers who come to contribute giant spiritual leaps in the whole planetary evolution. They, too, are undeniable proof of the Father's Love for the children, and because the children are not yet able to ascend to God's level, the Father lowers Himself to their level through the physical embodiment of His Sons. This is what occurred on our planet over 2000 years ago, through the very personal and hands-on ministry of our Master Jesus, and in this case our Creator Son, Christ Michael.

How then could anyone claim abandonment? Isn't it time to accept the established fact of the God's Love for all His Offspring? Indeed, in *our super universe*, we receive the Spirit on the threefold foundation of these various forms of revelation, The Spiritual, Infinite, Universal understanding and so we are constantly privy to tasty tidbits of Trinity Truth.

And true revelation never renders science unnatural, religion unreasonable, or philosophy illogical...  
*Thus, does revelation successfully bridge the gulf between the material and the spiritual, even between the creature and the Creator, between the human and God.*
