

By Ron Craig

The Spiritual Renaissance Broadcast has new packaging, a USB which makes it easier and more efficient to mail and to use with computers.

The entire Broadcast, all 225 programs are now on a USB roughly the size of your thumb that can plug into your computer or automobile. This makes distribution of the Broadcast much more versatile.

The Spiritual Renaissance Broadcast is the life work of Vern and Nancy Grimsley and was first aired on the radio in December 1964 and has been on the air ever since, its height was in the early 1980's when it was on 6 international stations and several domestic stations. Vern became very controversial in 1983 following the death of Christy Christensen and the purchase of the Institute in Clayton California.

The Family of God collapsed and the Institute was lost but Vern continued to preach into the microphone and make broadcasts, and the Broadcast stayed on at least one radio station through the turbulent years.

Vern and Nancy relocated to Oakhurst, California and purchased a large old ranch style house in a country setting. Vern soon got the Broadcast on the local radio station Mountain Kat where it aired for several years until that station was sold, shortly after this the Broadcast was aired on a Fresno station, then another and so on.

The Broadcast is now on 7 paid stations the last being added this spring and is a shortwave station that reaches several other countries including India. It is also available on Soundcloud and the website: spiritual-renaissance.org.

The Broadcast deals with the spiritual concept of Jesus' "Kingdom of Heaven": The love of God, Prayer,

persistence, patience, potentials, purpose, pride, procrastination, action, direction, conviction, Fragment of Infinity, Element of the Eternal- the essence of the Broadcast is the Call of God to humankind.

Vern had a God given talent, the ability to express ideas in verbal form: he used this talent to advance the understanding of the Kingdom of Heaven that Jesus proclaimed. To quote Nancy Grimsley “He certainly knows how to deliver a message.”

Nancy Grimsley sends “Best Wishes”

Forward with God Ron Craig
